

GERMANS FIRE IN EFFORT TO HIDE FAILURE

American Flyers Pursue Un-daubed Course in War on Champagne Front

With the American Army on the Champagne Front, Oct. 4.—Activities on the American sector yesterday were confined to artillery work by the enemy and minor movements by the Americans. But the line has not changed except here and there where slight corrections have been made.

The river, and later from other points. The shifting points of origin of the fire for the past three days give rise to the theory that the German bombardment might be for the purpose of creating the impression that they possess a greater amount of artillery than they really have, it being suggested that the guns are moved quickly to new positions after having been employed against certain targets.

The bombardment over the central lines was very heavy for short periods, but with surprisingly slight effect. American aerial supremacy continues to be maintained with astonishing ease. Another enemy machine has been brought down by anti-aircraft guns south of Montfaucon.

German planes during the night bombed the cross roads in the back areas, and the artillery action was supplemented by the use of phosgene and mustard gas. The bombardment both night and day such as it was, did comparatively little damage.

AMERICAN TANKS SCATTER GERMANS

[Continued from First Page.]

Tuesday in an attempt to capture Apremont, on the front northwest of Verdun, American tanks suddenly emerged from the town in all directions. The tanks went lurching through the German ranks, spraying bullets into them from all sides and spreading the utmost terror and consternation.

Two concrete emplacements for big guns were discovered west of Verdun when New York troops advanced along the eastern edge of the Argonne forest recently. The guns, which engineers think were Austrian 205s, had been removed.

A railroad led up to them, enabling the enemy to remove everything of value. It is believed the Germans made haste in removing the big guns when they saw that a serious Franco-American attack was impending.

Big guns, including two 105s and several 77s, have been taken by the advancing New Yorkers. Many roads leading from the forest to Montfaucon and Malancourt were barred by concrete pillars calculated to check Allied tanks. Antitank gun positions, many of concrete also were found. These concrete positions were, for the most part, behind the main line defensive positions, through which the Americans broke during the present drive.

KING ALFONSO GRIP VICTIM

Madrid, Oct. 4.—The health of King Alfonso, who is ill with influenza, continues poor to-day. Members of the royal family will leave San Sebastian to-day for Madrid, but the king will remain behind for a few days.

Your Labor Counts—every ounce of work you do helps some soldier who is fighting over there! This war is being fought as truly in the household and in the workshop as it is in the trenches.

Some of our American women are borne down physically and mentally by the weaknesses of their sex. They suffer from backache, dragging sensation, bearing-down pains, very nervous and pain in top of head. If they ask their neighbors they will be told to take a FAVORITE Prescription of Dr. Pierce's which has been so well and favorably known for the past half century.

Weak women should try it now. Don't wait! Today is the day to begin. This temperance tonic and nerve will bring vim, vigor and vitality. Send Dr. Pierce, Buffalo, N. Y., 10c for trial.

After seeking a vain relief for health at the hands of doctors and treatment with Dr. Pierce's Favorite Prescription, I was miserable, nervous and low spirited. I had a woman's trouble. I could not sleep. In fact, I was just about as weak and low as I could be. I could scarcely drag around. Often I would cry with no inclination to do work of any kind, but with aid of the 'Favorite' I am once more able to enjoy life. I can work without pain or that weak and tired feeling. — D. E. Hershberger, 4th St. and Highland Ave.

OPEN AIR SCHOOL TO BE DEDICATED

Fine Program Arranged For Opening of Splendid New Building

Dedication of the Susquehanna Open Air School, Fifth and Seneca streets, will take place next Friday afternoon, at 2 o'clock, with a formal program of addresses and the presentation of flags of Allied countries, unless the order forbidding public meetings of all kinds remains in effect and officials are compelled to postpone the event.

The complete program for the dedication was announced to-day as follows: Overture, orchestra; prayer, the Rev. Floyd Appleton, rector of St. Paul's Protestant Episcopal Church; "America," the school; history of the school, Dr. E. Donahue, superintendent; singing, the school; dedicatory address, Dr. Frederick L. Vansickle, president State Medical Society; selection, orchestra; address, Dr. Franklin B. Royer, State Commissioner of Health; singing, the school; address, Dr. John B. McAlister, president, State Medical Society; selection, orchestra; presentation of flag, Robert A. Enders, president of the board of school directors; The Star-Spangled Banner, the school; benediction, the Rev. Mr. Appleton; march, orchestra.

Harrisburg is the first city in the state to have a complete and specially designed open air school. The structure, built at a cost of more than \$30,000, and will replace two old buildings which had been used for that purpose since 1880.

The building is a one-story structure, eliminating any stair-climbing, and has four class rooms, each accommodating forty pupils. Movable desks have been installed so that they can be placed along the wall and the rooms used whenever needed for physical exercises. A feature of the building is a large sun parlor, with many windows, and chairs are placed in the room, so that one-half of the classes can rest while the others are in class. The windows are open on an uncovered porch and a terrace, so that in fair weather the youngsters can sit out in the open much of the time. New was laid and plenty of playground space is provided. A diningroom, accommodates eight pupils. A kitchen has been built also, and adjoining it is a small kitchen in which food for the boys and girls can be prepared.

At present there are ninety-four boys and girls attending the school, so that it is filled to slightly more than half its capacity. The teachers are, Miss Marian Williams, principal; Miss Adelaide Keys and Miss Claudine Melville.

The committee of arrangements for the dedication included: Dr. C. E. L. Kemp, chairman; George A. Werner and W. Frank Witman.

FINAL WORD TO GERMANY

London, Oct. 4.—Owing to Germany's failure to satisfy the exacting conditions of the agreement with Great Britain and raising questions concerning prisoners in China and the release of U-boat crews, which Great Britain declines to do, the British government has dispatched to Berlin a peremptory demand for an immediate answer.

Federal Board to Fix Prices for Clothing

Washington, Oct. 4.—Prices and distribution of practically all articles of wearing apparel are to be controlled by the War Industries Board. Regulations issued prescribing certain fixed prices for shoes constituted only the first step in a general policy for price control of clothing.

This was disclosed yesterday by Chairman Baruch of the board in an address at a special meeting of the National Retail Dry Goods Association. Referring to the agreement between the board and the shoe industry, Mr. Baruch said: "After that will have to come the regulation and distribution of most all of the things which you gentlemen have to deal with, I don't want you to say it can't be done, because it must be done. It is unthinkable that only the man with the longest pocketbook can get the things that he needs."

"When it comes to the question of a fair price that is very difficult to answer. I should say roughly that a fair price is the price something like the normal profits in normal times."

Though no details of the plan to be followed in controlling clothing prices has been announced, it is believed that standard prices for standard grades of men's and women's suits, hats and other articles of clothing probably will be established.

Congressman Focht Suggests Leiby Should Enlist

Washington, D. C., September 30, 1918.

When Congressman Benjamin K. Focht was shown Senator Scott Leiby's statement as published in Democratic Boss Vance McCormick's Harrisburg NEWS of the 27th, and his Harrisburg PATRIOT of the 28th, the Congressman was loth to discuss it until after the Liberty Loan campaign, but yielded from his purpose to the extent of making the following observations:

"I cannot conceive that the distinguished State Senator would undertake to prosecute a campaign of any such hypothesis, unless he believes, as do most of the southern Democrats who are in the saddle here, that the only patriots anywhere are Democrats, and the only fit Congressmen are 'rubber stamp' legislators. Mr. Leiby's announcement is somewhat on the order of the old-time newspaper blackguardism which invariably brought participants well-deserved defeat. It is the type of campaigning characteristic of the Democratic papers published in the Seventeenth District by Government office holders, which is usually too absurd to seriously countenance. That Mr. Leiby made these statements would be beyond belief but for the recollection of the cruel exaggeration and misrepresentation of the public record of that fine old gentleman and Civil War veteran, Senator Martin, which secured Leiby's election by a fluke in 1916. Thus it seems to come easy for Mr. Leiby to refer to me in his announcement as possessed of 'MEAN PARTISANSHIP AND NARROWNESS OF SOUL.'

"Since the day war was declared I have been overwhelmed with work, looking after the interests of the boys going to and at the front, and their good folks at home, and at this time have nothing further to say other than that Leiby comes rather late with his warcry, inasmuch as the war is nearing its end. Nevertheless, there is still an opportunity for him under the new draft law. I VOTED FOR WAR AFTER DIPLOMACY HAD FAILED AND SINCE THEN HAVE VOTED FOR EVERY BILL GIVING ALL POWER AND MONEY REQUIRED OR ASKED FOR BY THE GOVERNMENT TO SUCCESSFULLY PROSECUTE THE WAR. AMONG THESE MANY BILLS WAS ONE PROVIDING SIX HUNDRED AND FORTY MILLIONS FOR AEROPLANES! Now, if this war is not going fast enough and is not bloody enough for Mr. Leiby, he should enlist and at once go to France and show Marshal Foch how to do it.

"It will be remembered how the late lamented and beloved Colonel Thomas J. Stewart enjoyed telling from the stump that he should have entered the Civil War at its beginning, for then it would soon have been over. The strife ended three days after the Colonel joined his regiment. Here is a suggestion for Leiby, and its adoption would prove something more worthy than his false intimations intended to discredit me.

"Since I am well known from one end of the Seventeenth District to the other, I am not concerned about the 'hand-picked' candidate's undignified method of seeking a seat in Congress. The people in every township know where I have stood on all questions before the war, they know where I stand at this time, and they know where I will stand during the great reconstruction period after the war, when the interests of the soldier, the manufacturer, the farmer and the salaried men and women and the laborer are at stake.

"I must be excused from saying anything further at this time, for I deem it the duty of all Americans to help make the Fourth Liberty Bond Issue a smashing success rather than engage in political controversy."
