Pa Thinks His Son Is Immune From Everything But Trouble

Speaking of Paris; Paris, Missouri, the local paper there says that home folks of this neighborhood raise their boys to be soldiers, relating: "Fradition has it that in his day Hairz Young was the best man in Monroe county. He used to challenge all comers in a catch-as-catch-can bout, but times have changed. One day last week his 15-year-old son Newton challenged him to a round with the gloves. "He had been foolin" with the things all summer." said Heitz, "but I dida't pay much attention to him. I don't need the gloves, son," I said, and made for him to get him off his legs. I don't know how it happened, but my ribs are in bad shape, Haven't been able to do much since. Couldn't even set near him, and thought I was a man. I guess it must be what they call 'science.' Anyhow, no more bouts with that boy. He's too much for his pap."

Camp Meade Expects

to Have 150 Teams

Football may be choked off at some of the universities, but she is thriving at Camp Meade, reports men who are home on furlough. They expect to have as many as 150 elevens gridironing before the season is much older. The camp teems with stars, many thinking the pick of them to be included in the Sixty-third Infantry because of the presence of Major Hobbs, who was working on the West Point team when Elmer Oliphant was just beginning to see the limelight. He may not play on the regimental team, but he will surely have a good deal to say about its generalship.

Major Hobbs has been urged to form an all-officer team for the camp, in view of the success of such a plan in other camps last year. This was notably the case at Camp Dix, where the camp team, with the two Huntington boys and other Colgate stars, "cleaned up" for Meade, Devens and other representative teams which did not employ officers.

The reports showed that meetings of the auxiliary have been held each Thursday in the lecture room of the church. Knitting articles, surgical garments and surgical dressings have been turned out in large quantities. Many evenings men have assisted in the work. The aggregate of garments and other things made is quite formidable.

Editor Bitterly Raps Introduction of Boxing **Among College Students**

Among College Students

Defying Unele Sam, the Ohio State Journal tells what it thinks about the manly art, as included in athletic training, as follows:

"We note that one of the obligatory studies in the student body of the colleges giving military instruction is boxing lessons. We don't like that, because it recognizes a virtue in all boxing bouts and incipient prizefights, with which the country is blighted. There are plenty of other athletic exercises without resorting to one that encourages the puglifsite tendencies of the youth. There is nothing in it that is elevating; anothing in it that is elevating; anothing that uplifts and honors the associations of youth. It really introduces into a boy's life an ambition to be a fist-fighter, which may finally develop into a professional boxing career. It is to be regretted that the government extends the slightest favor to this innovation upon real education. It is an educational subterfuge that no true boy should be forced into. Its associations and influences will not contribute to the good character of a military education.

Amsterdam, Oct. 4.—The news of Bulgaria's unconditional surrender is now being published in the German press. It was admittedly withhold intentionally from public knowledge for a time because the German official world had refused to credit it.
