President.

Quite irrespective of the nature of theanswer, it seemed to be agreed that the German note called for a prompt reply so that the American people might not be misled into relaxing their efforts for the Fourth Liberty Loan, so that the American troops in the field may know at once the position of their government and so that an offer of peace may receive such diplomatic attention as it deserves.

Minister Ekengren, of Sweden, presented the note from Baron Burian, the Austro-Hungarian Foreign Minister, to Secretary Lansing at 10.30 o'clock. He was at the State Department only a few minutes.

It was during those three days, that Lieutenant Barron and severally of the other officers were severely wounded. Captain Stackpole was slightly wounded by shrapnel in the back and on the arm, but was able to continue on duty. Lieutenant Crawford was slightly burned upon the arm, but he, too, remained in file field at the end of the battle. Then he was selected to come to the United States to serve as an instructor and that left only Captain Stackpole in the field out of all of Company M's original officers, Now he is in the hospital wounded in both legs.
