KAISER MUST REMOVE TROOPS FROM RAIDED LANDS TO TALK PEACE

Washington, Oct. 8.—President Wilson to-day informed the German government that before the United States can discuss an armistice German troops must withdraw from all invaded territory. He asked Chancellor Maximilian whether he represented the German Emperor or the authorities of the empire who are conducting the war. The President's message was not a reply, but in the form of an inquiry. The Imperial German government is asked whether it accepts the terms laid down by the President in his address to Congress January 8, and subsequent addresses.

Washington, Oct. 8.—The text of the communication handed to the charge of Switzerland follows: "Sir: I have the honor to acknowledge on behalf of the President, your note of October 6th, enclosing the communication from the German government to the President; and I am instructed by the President to request you to make the following communication to the Imperial German chancellor: "Before making reply to the request of the Imperial German government, and in order that that reply shall be as candid and straightforward as the momentous interests involved require, the President of the United States deems it necessary to assure himself of the exact meaning of the note of the imperial chancellor. Does the Imperial chancellor mean that the Imperial German government accepts the terms laid down by the President in his address to the Congress of the United States on the 8th of January last and in subsequent addresses and that its object in entering into discussions would be only to agree upon the practical details of their application? "The President feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the governments with which the government of the United States is associated against the Central Powers so long as the armies of those powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory. "The President also feels that he is justified in asking whether the imperial chancellor is speaking merely for the constituted authorities of the empire who have so far conducted the war. He deems the answer to these questions vital from every point of view. "Accept, sir, the renewed assurances of my high consideration. "ROBERT LANSING."

ARMISTICE IS TO FALL FLAT TO FALL FLAT Not to Germany May Be on Cables Now, Says Report Secretary Lansing is expected to give out President Wilson's answer to the Hun plea for mercy at 4 o'clock this afternoon. The Telegraph will place an extra edition on the streets at that time. Washington, Oct. 8.—President Wilson's reply to the German and Austrian request for an armistice and peace negotiations probably will be dispatched before night, if it is not already on the cables. After being called into conference by the President with Colonel House and Secretary Lansing, Secretary Tumulty announced to-day that Mr. Lansing would see the newspaper correspondents at 4 o'clock and "probably would have something for them."

FRENCH SMASH CENTER LINES Pershing's Army Has Placed Enemy in Great Danger London, Oct. 8.—English and American troops attacked this morning on the front between St. Quentin and Cambrai, Field Marshal Haig announced to-day. Satisfactory progress is being made, the report states. In successful operations near Mont Brehain and Beaurvoir on this front yesterday, more than 230 Germans were taken prisoner by American and English troops. Today's attack was launched just before daybreak, during a heavy rain which began last night.

INCREASED FARE NECESSARY, SAY BOTH COMPANIES Denials That New Rates Are Unreasonable Filed With Utilities Board Counsel for the Harrisburg Railways, attacked in complaints against increases of fare, capitalization and other matters before the Public Service Commission last week, today filed answers which specifically deny that the advances in fare are unreasonable and declare that various statements made by complainants are not material and that, furthermore, the personal opinions of the people who signed complaints are not germane to the issue raised before the commission. The denials are formal and sweeping, being couched in strict legal phraseology. The whole proceeding has now gotten down to an impartial basis and the next move will be fixing of dates for hearings.

GERMAN RETREAT IN BALANCE If the French are able to debouch from Berry-au-Bac and obtain a bridgehead on the north side of the Aisne, the German forces clinging to the Chemin de Dames, along the ridge north of the Aisne, will be compelled to fall back rapidly. At the same time the Germans retreating before General Gouraud's army, further to the east, will find that the Aisne, their apparent objective in the present retirement, is not a refuge. It may, on the other hand, be but a trap for the shattered forces now streaming back from the Py. Arnes, and upper Aisne rivers.

IN TOUCH WITH ALLIES The President, it was believed has preceded actual sending of the reply by asking Premiers Lloyd George, Clemenceau and Orlando to advise him of their answers or by submitting to the premiers a draft of his reply for approval. At any rate it was assumed the American reply will have the approval of Great Britain, France and Italy and of all the other co-belligerents.

ORDER NUMBERS FOR NEW DRAFT MADE PUBLIC Men Having Serial Designations May Find Their Places on List The Harrisburg Telegraph prints a list of all the serial numbers of the new draft for the central Pennsylvania district, showing the order in which they were drawn in Washington. The master list, made public from Washington to-day, contains 17,000 numbers because somewhere in the United States there is a local draft board having that many registrants. But as the largest number of registrants in any local division is only 4,000, the list is divided into four groups, each group containing 4,000 serial numbers. The drawings above that figure may be disregarded here. All the numbers higher than the total number of men registered with your local board will be considered blanks by that board. Each registrant should ascertain from his local board how many men it has registered. Then, by taking the serial number and drawing a pencil through all the numbers larger than that total, the registrant will be able to tell exactly what his call number is; in other words, he can find out how many men will be summoned for examination before he is called. This is the list: read across the lines, not down the columns, to ascertain the order of the drawing; strike out all numbers that are higher than the total number of registrants in your local unit; you come to your own serial number. The cross heads—"first hundred" and so on—are inserted before each block of 100 serial numbers for the reader's convenience.

Only 1,480 American Fighters in Hun Prisons Washington, Oct. 8.—Members of the American expeditionary forces who have been identified as prisoners of war in Germany numbered 1,480 on October 5, said an announcement yesterday from the office of the Adjutant General of the Army. In addition, 220 civilians interned in Germany have been identified, as well as some sailors held in Constantinople.

Kinard, with a large practice, attended to his patients until he fell from exhaustion and went to bed with pneumonia, dying twenty-four hours later. J., last week, was caused by enemy agents, has been discovered by government operatives in a letter predicting the explosion on Friday night, signed "Heine" and addressed to a man in Sonora, Mexico.

BIG TEAMS OF BOND WORKERS CANVASS CITY IN GREAT DRIVE First Reports Being Made This Afternoon of Success of the House-to-House Sale; Much Remains to Be Done MAJOR SCHELL SENDS WORD FROM OVER SEAS In the Liberty Loan drive on 1 o'clock of today bonds to the total of \$582,000 were sold. The industrial drive, to noon to-day, has sold bonds valued at \$1,913,900. Here is Harrisburg city's total to 3 this afternoon: Homes \$582,200 Industrial 1,913,900 Total \$2,496,100 The first day in the Fourth Loan surpasses that of the Third by almost \$1,000,000. When it comes to getting into the war—and making it their own personal war—the employees of the Harrisburg Pipe and Pipe Bending Company take back seats for no other portion of Harrisburg's population. It was reported at headquarters this morning that 2,655 employees of the Pipe Bending Company have purchased \$400,000 worth of bonds. This sum does not include the bonds bought by the company itself or the individual members of the company. The Pipe Bending employees have bought almost double the bonds they purchased in the Third Liberty Loan. Homes Drive on in Earnest The homes drive began to-day in earnest. Hundreds of team workers were canvassing every city block. The Fourth issue flags began to appear as if by magic in many hundreds of homes. Between 1 and 1 o'clock to-day team members were reporting sales to their captains, who have been given the use of five rooms on the third floor of the Federal building by Postmaster Frank C. Sites. This will be the procedure every day. Between 1 and 2 o'clock team captains reported progress to their commanders, and the totals were taken to Liberty Loan headquarters in Market street. Head Will Show Totals The bulletin board in front of the Courthouse at 2 o'clock this afternoon was the center of interest for hundreds of persons who gathered to hear the progress by the Municipal Band and to see the marking up of totals for the various teams. This concert will be a daily feature. Major Schell Buys Bonds A letter came to-day from Major Edward H. Schell, well-known em-

HUN PRESS DIFFERS ON PEACE OFFERS By Associated Press Amsterdam, Oct. 7.—Commenting upon the address by Prince Maximilian, the new German imperial chancellor, the Tageblatt of Berlin, says: "All Germany, or at any rate, that great, honest and good Germany which is imperishable, feels that Prince Maximilian has done what is right and necessary. Why haven't we learned earlier to know ourselves?" The Lokal Anzeiger defiantly says the German will to the last drop of blood fight those whose aim is to, dictate a humiliating peace.

FOUR MORE ARE ARRESTED IN A DRUG ROUNDUP City Detectives and Federal Officers Make Raid on Cowden Street House City Detective Hyde Speese, with Federal authorities, yesterday rounded up four more alleged links in the chain of narcotic dispensers and users who have been responsible for much of the illegal drug traffic reported to be carried on in Harrisburg. In a quietly conducted raid on No. 12 Cowden street four alleged narcotic users were arrested and taken to the police station. The hearings will be held by the Federal authorities. Those arrested are James Thompson, Harold Barnett, Charles Jefferson and Rose Coleman. Energetic efforts have been started by police and Federal authorities to put an end to the insidious drug traffic which is reported to be carried on in Harrisburg and which is accountable, according to the police, for much of the crime of the city. Detective Speese has been active in the efforts to round up the alleged dealers.

SALOONMAN IS ARRESTED FOR SELLING LIQUOR DESPITE CLOSING Peter Kohlman Charged by City Health Authorities With Having Sold Intoxicants Despite Quarantine LITTLE CHANGE SEEN IN EPIDEMIC'S GROWTH No check of the influenza scourge in this city seems in sight, according to City Health Officer Dr. J. M. J. Raunick, who stated at noon to-day that the epidemic continues to spread with few optimistic signs of its abatement. Ten percent of the city's physicians reported to him up to 12 o'clock to-day and turned over figures showing that 157 new cases of the disease had developed within the last twenty-four hours. Dr. Raunick, though giving it as his opinion that the general situation will be improved by the end of this week, said that he didn't look forward to any appreciable change for the better before that time. Contributory factors in making a hopeful forecast of the epidemic, Dr. Raunick said, was the favorable change in weather conditions, which is clearer and colder than last week, and the fact that the strict quarantine laid down is being rigidly observed. These continuing will lead to the stamping out of the malady in Harrisburg, he said. Need of Rest The city health officer suggests that those suffering from the disease remain in bed and remain isolated even when their convalescence is accomplished for a period of a week or ten days. Fresh air and sunshine in abundance is the receipt par excellence.
