

WATER CASES TO BE HEARD OCT. 16

Dauphin Service to Be Probed into by Public Service Commission

October 16 has been fixed by the Public Service Commission for hearing most of the water complaints from this county, the Middletown situation having been adjusted by an order made a short time ago. The three Hummelstown cases will be heard together and there has also been listed for that day the complaint of the citizens of Progress against the Susquehanna Township Water Co. and the Lawson complaint against the Penbrook Extension Water Co.

The Oak Extract Company's case against the Newport and Sherman's Valley Railroad is due on the sixteenth as is the complaint against the York County Consolidated Water Co., from Dallastown.

The Harrisburg and Valley Railways companies have not yet filed their answers to the complaints filed against their new fares. Some additional complaints have been filed, but they are all informal, some of them so informal as to be mere growls.

Information Asked.—Commanders of 150 Army camps, cantonments and training stations were to-day sent letters by Adjutant General Beary asking for information as to

"Nothing So Good as Tonalil for Indigestion" Is the Experience of a Nurse

"I suffered for years with indigestion. Nothing helped until I began taking Tonalil. Now I eat anything and am getting fat," says Nora Green, of Coatesville, Pa. "My occupation is nursing. My duties take me among sick people. My experience with Tonalil has been beneficial indeed. It drove all pains from my stomach. I feel all toned up, and there must be great virtue in the Roots, Herbs and Barks in Tonalil, as it certainly is good for stomach ailments. "My wonder is why don't everybody with indigestion use it. They would if they knew what good it does."

This testimonial was given July 16, 1918. Tonalil is sold at Gorgas' Drug Store, Harrisburg, and Marts' at Steelton.

the number of Pennsylvania soldiers of voting age in their commands. This information is to be used in arranging for the voting of the soldiers. It is now proposed to have one commissioner supervise the voting by each 1,000 men. The taking of the votes this year will be attended by considerably more difficulty than last year as the men are scattered through many organizations. In 1916 and 1917 the men were grouped largely in commands from districts of the old National Guard or where they had been drafted from certain sections and assigned to form new regiments. The duty of the commissioners will be to see that these men get opportunity to vote. Each commissioner will have about 100 pounds of supplies.

Work on Roads.—Workmen of the State Highway Department have been put to redoubled work on the Lincoln Highway and National Pike because of reports of big army truck movements which are to be made this fall. A force of men is also engaged in repairing roads in Beaver county which are used to connect with Ohio State highways.

Stock Increases.—The Pittsburgh Outage Gauge Co. of Pittsburgh has filed notice of increase of stock from \$5,000 to \$50,000; Eastern Pennsylvania Gas and Electric Co., Scranton, \$300,000 to \$325,000; William Penn Oil Co., Building Loan Association, Tullytown, \$1,000,000 to \$3,000,000; Dilworth Co., Pittsburgh, \$37,400 to \$104,900. The Natural Gas Products Co., Pittsburgh, and Kent Realty Co., Delaware county, have filed decrees of dissolution.

Big Cases Listed.—The Public Service Commission has fixed October 14 to hear argument in the Springfield Consolidated Water complaints and October 24 for hearings in the Wayne Sewerage Co. complaints from suburban Philadelphia.

Foust's Report.—Eighteen of the sixty-six arrests made last month by agents of the State Dairy and Food Bureau have been listed by Commissioner James Foust as for the sale of milk or cream showing evidence of having been watered. They were officially returned as "low in fats" and were found in Beaver, Blair, Chester, Clearfield, Dauphin, Erie, Juniata, Jefferson and Luzerne counties. Eighteen arrests for sale of various alleged "soft" drinks containing anywhere from three to nine per cent of alcohol were reported, while twenty-two arrests for sale of cake colored with coal tar dyes, butter more than a fourth moisture and olive oil made out of cotton seed oil. Some of the vinegar sampled was found to contain caramel.

Hunting the Pest.—State Zoologist J. C. Sanders has detailed agents to make an inspection of potato patches and farms in the Mt. Carmel and Mahanoy City regions of the anthracite coal field and many extend his inquiries regarding presence of the European potato wart through Northumberland county and the upper end of Dauphin. State agents are now working in the Schuylkill and Carbon county mining districts and may inspect the upper end of Lehigh county. Columbia and Lackawanna will also be visited.

Drills are on.—All drills of Reserve Militia organizations have been canceled until further notice by Adjutant General Beary because of influenza and some of the units have been ordered to hold themselves in readiness for emergency service to aid in combatting the disease.

Meetings Off.—Meetings scheduled by the State Compensation Board for Potsville, Wilkes-Barre and Scranton have been canceled because of the influenza outbreak.

Ashland Complaint.—The borough of Ashland to-day filed complaint with the Public Service Commission against the service of the Schuylkill Railways Company, charging that cars are old and unsuited for traffic and that new transfer arrangement is not satisfactory.

Ely Succeeds to Swope's Position

Moses K. Ely, former bureau officer of the stream inspection service of the State Department of Health, was to-day appointed chief clerk in the bureau of engineering of the Public Service Commission. He succeeds Charles Swope, who goes to Washington as secretary to Senator Boies Penrose. Mr. Ely left the Health Department some weeks ago.

Mrs. Charles A. Snyder, wife of the auditor general, is ill at her home in Pottsville and General Snyder could not get here to-day to attend various meetings.

Register of Wills James B. Sheehan, of Philadelphia, to-day paid the state \$108,079.98 as collateral inheritance taxes and \$82,673.54 as direct taxes.

Accountants working under arrangements with the Public Service Commission to-day began examination of the steam accounts of the Harrisburg Light and Power Company.

Dr. Samuel McClintock Hammill, of the State Department of Health's Philadelphia office and well known here, has been designated as the physician in charge of the newly created Philadelphia district to fight influenza.

Secretary William H. Ball represented the Governor at the funeral of Fire Marshal Port at Huntingdon. The Governor got here from Philadelphia early this afternoon, coming by automobile. **Adjutant General Beary** will go to Erie to-morrow to attend the Soldiers' Home meeting. **A state quarantine for rabies** has been established for the city of Bradford.

"The Live Store"

"Always Reliable"

Are you helping to pave the way to victory?

Honorable peace can only be had when our armies reach Berlin. But we must buy

"Liberty Bonds" to win How many Do You Own?

"Always Reliable"

Today as in normal times "Always Reliable" has become synonymous with the great DOUTRICH Store throughout Central Pennsylvania — It has signified a full measure of service and satisfaction and has taken on a greater meaning in these times than ever before.

Many merchants are lowering their standards of quality, rather than courageously facing conditions and maintaining standards — But DOUTRICH'S are sticking to the standards of quality and value-giving that have been responsible for the rapid growth and excellent reputation this "Live Store" enjoys — In many instances it has meant closer margins of profit—But "after all," to "carry on" is the wartime purpose of every patriotic business institution.
