Council Amends Health Code, but Holds Up Action on Other Borough Problems

Amendment to the health code it its meeting last night providing penalties for violations of a number of its sections. The questions of the street car ordinance and water rates Fassed of a special committee to confer with the Harrisburg Railways Company, reported progress and promised final adjustment on the ordinance at a meeting with the railways company on October 17.

The new water rates, for the decision to raise them has virtually been made, will probably be decided upon in November, meanwhile data is being gathered on the matter which will determine the rates to be fixed. There is talk of a \$10-year minimum rate to the private consumer and seven cents per thousand gallons minimum for the commercial user. The above rates are an advance of \$2 and one cent, respectively. A breakdown of the big stone crusher at the local stone quarries is responsible for the holdup in the improvements to South Front street, below the paved section. MARRIED HAPPINESS

WOMAN FALLS DOWN STAIRS WOMAN FALLS DOWN STAIRS New Cumberland, Pa., Oct. 8.—
Prof. J. A. Sprenkel, of New Cumberland, was summoned to Mechanicsburg yesterday on account of an accident to his sister, Mrs. Sallie Nesbit, who fell down a flight of stairs and was rendered unconscious. She was alone at the time and was found by a neighbor some time after the accident. Doctors claim a man or woman with a strong nervous system has complete control of happiness. It is only those who are played cut by overwork, worry, excesses, and thoughtless dissipation that are quarrelsome and disappointed in life. Do not condemn them, their nervous are starved, they are depleted if life and energy and no thought is given to supply them with food nerve energy to make them calm strong and controllable.

The foolish waste of nerve force turns a cheerful happy person to the grouch that accounts for so many separations.
