heaven—is yours ready to receive its defender?

Our store has two thoughts this week—one is to push the sale of Liberty Bonds for the defense of the home, the other is to feature the merchandise that will help to make your home more worthy of its defender.

Therefore we have ready for your inspection the newest things in home decorations, but particularly in window decorations. Because a dollar spent in window decorations gives the biggest returns in the freshening, the beautifying of a room, and moreover because window draperies are the only decorations of the home enjoyed alike by the family who live in it, the friends who visit it and the hundreds of strangers who pass it from day to day.

homes in northern France expresed themselves on the subject of an armistice. The same idea runs through the Allied armies, where men have seen their comrades die, and would feel that they had died in vain unless victory was absolute. Suspension of hostilities, even for a few days, would enable the Germans to continue the preparation of lines to which they might retire for the winter. At this moment the Hindenburg system has ben smashed and the German military leaders have every reason to believe that they may soon be fighting back over country in which they have no protection from the advancing Allies.
