RELIEVED FROM ITCHING BURNING ECZEMA

Gives Resinol the Whole Credit. Aug. 15.—"For some time I suffered frightfully from eczema on my legs. From my knees down they were covered with scales, and itched and burned as though hot coals were resting on them. I would scratch until the blood came, and was unable to sleep at night. Nothing that I tried helped me, until a druggist recommended Resinol Ointment. After applying it once, I enjoyed the first good night's sleep I had had in weeks. Now I am sound and well after using a little over one jar of Resinol Ointment, to which I give the whole credit." (Signed) E. B. Price, 414 Downey St. Indianapolis, Ind.

OH! FOR RELIEF FROM FLAMING SKIN DISEASES

Terrifying Itching Causes Continuous Torture Do you sometimes feel like you will scream if you do not get relief from the tormenting and terrifying itching and irritating burning that makes you feel like your very skin is ablaze? Possibly your disorder has not reached the torturing stage as yet, but there are thousands of victims of skin diseases that know too well the well-nigh unendurable pain that comes from eruptions, irritations, pimples, boils, ulcers, eczema, psoriasis, carbuncles and the numerous other forms of torment that attack the delicate tissues of the skin. The only proper method of treatment for any disease is a remedy that will reach its source, that will remove its cause, and not simply palliate its symptoms. Every form of skin ailment comes from a colony of millions upon millions of tiny disease germs that infest the blood. Naturally, then, these germs must be eradicated from the blood before a cure can be expected.

Tractor Work.—Results of the work of sixteen tractors of different makes in the tractor demonstration conducted recently by the State Department of Agriculture on the United States army quartermaster depot farms near New Cumberland were issued today at the Capitol. Each machine was a different piece of ground as to size and some plowed in corn stubble with weeds several feet high, while a few were given fields with gullies and stones to demonstrate the conditions of heavy rain occurred during the demonstration. Eight tractors were worked in a field with two year old corn stubble five to six feet high and then seeded it with wheat.

French Toy Makers Hold an Exhibition Paris.—One of the most hopeful signs of a prosperous future for the French toy industry—a future in which French manufacturers will be superior to the German makers of toys, who controlled and monopolized the industry and markets of the world—was seen in the famous Coty show, or toy show, held in the Petit Palais, Champs Elysees. Sixteen years ago the first of a series of these toy exhibitions was held in Paris. The exhibitions are named after M. Lepine, then Prefect of Police, who encouraged the idea, seeing in them opportunities for assisting small makers and restorers of mechanical toys, puzzles and other articles in which the taste and ingenuity of the Paris artisan have always been exemplified.
