PENROSE FAVORS HUN WITHDRAWAL BEFORE PARLEY

Others Believe Germany Is Trying to Avert Great Disaster in War

Washington, Oct. 9.—There are many phases of opinion regarding the President's reply to the German proposal for an armistice. U. S. Senator Boies Penrose, of Pennsylvania, observed:

"Until the territory occupied by Germany has been entirely evacuated there can be no discussion of peace. Even when that is done there are many other important preliminaries that must precede actual peace negotiations."

"The President does right in refusing to deal with Germany while her armies are on conquered territory. I like that part of the note especially which suggests that they should get out before talking of an armistice. In making the inquiry as to whom Prince Maximilian represents, the President merely wants to know with whom he is dealing and it is a very pertinent inquiry. The President demands that the German government should come out in the open and be entirely frank as to their intentions and purposes."

"Uncle Joe" Cannon, ex-Speaker of the House, said: "The President is testing Germany's sincerity by asking for a definite statement and demanding the withdrawal of their troops from Allied territory before peace discussions can take place. I think that he wants to place Germany in the position of rejecting peace along the lines as already laid down by the President."

U. S. Senator Lodge, Representative Fess, chairman of the Republican National Congressional Committee, and others, expressed disappointment that any opportunity had been given the Prussian government for a parley; that "unconditional surrender" should have been the answer.

Senator Borah, Republican, Idaho, said: "If the response to the President's inquiry should be that the Imperial German government accepts the terms laid down by the President in his address of January, 1918, and subsequently addresses, then it must necessarily follow that the dynasty must step down and out, because in the address of September 27, which the Imperial German Chancellor mentions, the President expressly states that we cannot come to terms nor have any bargain with the government of Germany. The note is well designed to clarify a very involved situation."

Senator Lodge—"I am keenly disappointed that the President should at this stage enter into a discussion with the Imperial German government, as he has done in the note signed by Mr. Lansing. In his first and second paragraphs he asks for further information and invites further discussion. I feel very strongly that there should be no discussion with the German government until they are ready and compelled to accept the terms we think it right to impose. In many quarters the German move is regarded as a scheme to

Text of the President's Answer

Washington, Oct. 8.—The text of the communication handed to the Charge of Switzerland, giving the President's answer to the German peace proposal follows: "Sir: I have the honor to acknowledge, on behalf of the President, your note of October 6th, enclosing the communication from the German Government to the President; and I am instructed by the President to request you to make the following communication to the Imperial German Chancellor:

"Before making reply to the request of the Imperial German Government, and in order that the reply shall be as candid and straightforward as the momentous interests involved require, the President of the United States deems it necessary to assure himself of the exact meaning of the note of the Imperial Chancellor. Does the Imperial Chancellor mean that the Imperial Government accepts the terms laid down by the President in his address to the Congress of the United States on the 8th of January last and in subsequent addresses and that its object in entering into discussions would be only to agree upon the practical details of their application?"

"The President feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the Governments with which the Government of the United States is associated against the Central Powers so long as the armies of those Powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.

"The President also feels that he is justified in asking whether the Imperial Chancellor is speaking merely for the constituted authorities of the Empire who have so far conducted the war. He deems the answer to these questions vital from every point of view.

"Accept, Sir, the renewed assurances of my high consideration.

"ROBERT LANSING."

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh

Happy bright, alert—vigorous and vivacious—a good clean skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere. An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and refreshing the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

Motorman Not Losing Any Time

"I don't think anyone ever suffered more from stomach trouble and bloating than I have. I had to lay off my run more than half the time and could get no help from prescriptions or medicine. One of my friends advised using May's Wonderful Remedy, which I found to be the greatest remedy ever put on the earth. I have not lost a day since taking it. It is worth its weight in gold. It is a simple, harmless preparation that removes catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.
