GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion. Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often often affecting the heart. It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any drugist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloating right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion. G. A. Gargas.

Auto Load of Fruit For Camp Colt Soldiers

Waynesboro, Pa., Oct. 10.—An automobile load of fruit, consisting of apples, oranges, grapes, bananas and celery, was taken to Gettysburg for the sick soldiers at Camp Colt yesterday. The Present Price of KING OSCAR CIGARS

7c

You will note that we have emphasized the word "Present."

Some months ago we were confronted with the question of increasing the price—or reducing the size and quality of King Oscar Cigars.

And we came to the conclusion—once and for all time—that the same regular quality that had been maintained in old K. O. for 27 years would not be sacrificed—come what may.

So we moved the price up to 6 cents—6 cents, because that price would see us through with market and labor conditions as they were then.

And as these conditions grew steadily worse we hung on as long as we could.

Now it's again a case of cutting the size and quality—or increasing the price.

And, as we've decided that K. O. quality and quantity shall never be sacrificed, there's only one thing to do—

So we have increased the price again.

With constantly changing conditions, there's no telling how long we'll be able to maintain the present price.

We'll do it just as long as we can continue King Oscar regularity at that price.

We may have to increase it again—we don't know.

But the PRESENT price of King Oscar cigars is 7 cents.

And the quality and the quantity is—as it always will be—THE SAME—and always good.
