

Morgenthau Tells Kaiser to Abdicate

New York, Oct. 14.—Henry Morgenthau has written a reply to an article by Theodor Wolff in the Berlin Tageblatt, which takes the form of an imaginary appeal to President Wilson from some friend familiar with Europe for example Mr. Morgenthau, former ambassador to Turkey, painting a picture of Germany misled by false Pan-German prophets, but loving peace with its whole soul, and, having learned its lesson, now ready for a Wilsonian peace.

Mr. Morgenthau's answer is as follows: "Theodor Wolff, Tageblatt, Berlin: 'This evening's New York papers quote you in the Tageblatt as imagining me presenting to President Wilson the picture of Germany misled by false Pan-German prophets, but loving peace with its whole soul and having learned its lesson, as now ready for a Wilsonian peace. All Americans realize fully that Turkey is absolutely helpless and must surrender unconditionally in a few days; that Austria will shortly follow her and that will isolate Germany, which has been unable to defeat the Entente during four years' struggle and is now almost exhausted, owing to her lack of raw

materials, the decline of her manpower and morale and the loss of all hope of victory. When your sovereign surveyed the United States he only examined the surface. He did not appreciate the tremendous force which was latent underneath the surface. That force is now aroused—all its wealth and its man-power, which in itself, without calculating our seasoned and indomitable allies, is strong enough and absolutely determined to assist them to a real victory. If you want to secure prompt relief for your people, induce your Emperor to abdicate on his own behalf and that of his sons. If Germany has been misled by false Pan-German prophets to plunge this

world into such a terrible war, let Germany trust them no longer. Compel them to abdicate and permit a republic to be formed. If your people 'love peace with all their souls' show it by persuading the Emperor and his sons that they must make the supreme sacrifice of surrendering their power, thereby sparing the millions or more of their subjects who will be destroyed in their futile efforts to visit them, and also to avoid the devastation that will follow in its wake. A Wilsonian peace is a just peace and can only be made with an authority that loves justice and not one that has flouted it as shamefully as the Hohenzollerns have.

"There is but one escape from the wrath of his people—voluntarily yield to them sovereignty that is theirs and theirs alone. If you now admit that you have been misled, how will the people feel when their country is overrun and they have to take some of the treatment they have administered to France, Belgium, Russia and Serbia?" "HENRY MORGENTHAU."

"The excitement in Berlin is said to be extraordinary. People are kissing one another in the street, though they are perfect strangers, and shouting peace congratulations to each other. The only words heard anywhere in Germany are 'Peace at last.' 'In the present circumstances any politician or general who would openly oppose acceptance of Wilson's terms would be swept away by a furious mob. 'Once more the question has arisen in Germany to-day. What are we going to do with the Kaiser? Rumors of his early abdication again spread on the Berlin Bourse and have even been telegraphed to German firms on the Amsterdam Bourse. In spite of official denials, the belief gains ground in Germany that there is truth in the report that the Kaiser seriously thinks of abandoning the throne especially as many persons in Germany, and probably the majority of the working classes, openly regard his retention of the throne as the most serious obstacle to peace.

Don't Quit When You're Winning Buy Liberty Bonds

The proposition is clean and square-cut. Your Uncle Sam wants Six Billion Dollars. He will pay 4 1/4 per cent. for it and give you the United States as collateral. He has been in business 142 years and has never defaulted on a debt. He wants this 6 Billions to determine whether he shall continue in business on an independent, self-governing basis, or be incorporated into the firm of William Hohenzollern and Co., and take his orders from Berlin. There is absolutely no chance of this, if he can get the necessary funds. But he cannot win without money. It is a big enterprise and will take big money to swing it. He asks you to advance him this money now, so as to ensure a swift and successful prosecution of the war. If the Hohenzollerns come over they will take your money anyway, so you might as well lend it to your Uncle Sam and be sure of getting it back. If you have bought bonds, buy again to your limit.

Special Report From Washington-- "Santa Claus Has Not Been Drafted" Toys Are Going to Be Scarce Long Before Christmas

Not a toy department in the U. S. has received much more than 50% of their Spring purchase for the coming Christmas. We foresaw this and purchased accordingly, to the effect that at the present time we are 95% complete. TOYS CAN BE BOUGHT THIS MONTH to the Government's advantage, and to the customer's advantage. We cannot employ an extra force of salespeople to handle the holiday trade, but must endeavor to spread that business over the entire period from now to Christmas. THE SPIRIT OF CHRISTMAS must not be destroyed. Begin your Christmas shopping early and thereby help to equalize the work of distribution and conserve manpower to win the war.
