

BAKER BACK FROM WAR FRONT WITH DEMAND FOR LOAN

Tells Country to Go Over Top For Loan as Answer to Germans

Washington, Oct. 14.—Secretary Baker returned from the western front yesterday, with the message that the Liberty Loan "must go over the top," whatever the result of peace proposals.

Army Doing Its Best "The army has done and is doing all that a proud and grateful country could ask," Mr. Baker said on reaching Washington last night.

and the time has come for us to put in every ounce of our strength to assure its complete victory. The people at home have a solemn responsibility for their share in the final result.

The Liberty Loan must go over the top! Its success is both our message of gratitude to the boys who are braving war's worst perils in defense of our liberties and a message to Germany that our people at home are as resolute as our soldiers are brave.

Whatever the result of the peace proposals the war department must proceed at full speed with men and supplies and the people must support the army until the boys are back with the fruits of victory safe and assured. If every American could have seen our boys in khaki as they stormed the German trenches, assaulted with shrapnel, high explosives, and machine guns he would be eager to subscribe his all to the Liberty Loan.

Yank Troops Reach Every Objective in Drive Along Meuse

With the American Army North-west of Verdun, Oct. 14.—The American troops on both sides of the Meuse have obtained their objectives, was the official characterization of the Saturday operations.

150 Are Killed by Porto Rican Quake; Damage Is Severe

San Juan, P. R., Oct. 14.—One hundred and fifty lives were lost in the earthquake in Porto Rico, it was estimated by Governor Yager. Almost every town in the island reports damaged property and scattering fatalities.

Secret Orders Member Gives Strong Praise

Harry Minahan Expresses His Thankfulness For Great Benefit Received "Harry F. Minahan, of 2144 Greenwood St., Harrisburg, Pa., prominent in the Knights of Malta, and inside Sentinel of Order of Woodmen of the World highly recommends the master medicine to his lodge brothers and to all who are run down."

But as soon as I began taking Tanlac I began to spruce up. I got to feeling better and better and now I am full of pep, I eat hearty and enjoy every bit and I am glad to be alive. I'm as different to what I was a little while ago as day is from night and I can truthfully say that this great change was brought about by Tanlac. That's why I urge everybody to take it.

Tanlac is now being introduced here at Gorgas' Drug Store. Tanlac is also sold at the Gorgas Drug Store in the P. R. R. Station; in Carlisle at the Stevens Pharmacy; Elizabethtown, at the W. W. Cain; Greencastle, Charles B. Carl; Middletown, Colin S. Few's Pharmacy; Waynesboro, Clarence Croft's Pharmacy; Mechanicsburg, H. F. Brunhouse.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mix the Sage Tea and Sulphur Compound at any drug store or make it at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not a sign of old age, it is a sign of your youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly, so quickly, just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Text of Germany's Note

Washington, Oct. 14.—The text of Germany's note as received by official channels here, is: In reply to the question of the President of the United States of America, the German government hereby declares: The German government has accepted the terms laid down by President Wilson in his address of January 8, and in his subsequent addresses on the foundation of a permanent peace of justice. Consequently its object in entering into discussions would be only to agree upon practical details, the application of these terms. The German government believes that the governments of the Powers associated with the government of the United States also take the position taken by President Wilson in his address.

The German government, in accordance with the Austro-Hungarian government, for the purpose of bringing about an armistice, declares itself ready to comply with the propositions of the President in regard to evacuation. The present German government, which has undertaken the responsibility for this step toward peace, has been formed by conferences and in agreement with the great majority of the Reichstag. The chancellor, supported in all of his actions by the will of this majority, speaks in the name of the German government and of the German people.

UNCONDITIONAL SURRENDER, IS CRY

(Continued From First Page) troops, contrary to all the practices of war, have been systematically murdered, and civil populations indiscriminately massacred, solely to spread terror. A regular system of ingenious terrorism has been directed against civilians, as horrible as anything in the history of civil or religious wars. Large and populous cities have been, not once, but twenty, thirty, or more times, bombarded and burned, and the women and children in them wantonly slaughtered, with the sole object of inflicting suffering. All this has been done, not in license or passion, but by the calculating ferocity of scientific soldiers. And lastly, when the last chance of saving Paris was gone, the German government, after a few weeks of famine, they must needs fire and shatter a city of two million souls.

Let us remember that all this was carried on for five months after France had sued for peace in the dust, and had offered what was practically everything except her national independence and the honor and self-respect of every Frenchman.

Lest We Forget "Yes, let us remember it all, and particularly the last sentence. It is instructive at this time. "There were those at that time who clearly defined the future and warned other nations of the danger of this dynasty were permitted to trample upon France and remain contrivers in European affairs."

Let us understand that the thing with which we have to deal is a living, scheming, powerful human agency, "arbitrary, military, fanatical," bent upon the destruction of France. This "army" is not a "system" sustained by a social and military hierarchy not to be bound by any treaty and respecting no right, human or divine.

"We do not think the same thoughts or speak the same language of agreement"—and we cannot negotiate or come to terms with such a power. The only way we have any companionship with it. St. Helena still holds her solitary place in the midst of the sea, safe asylum for all those mad with the delirium of a madman. This is not vengeance, it is not hate, it is not even impartial retribution—it is simply the first step for permanent peace. It is the only justice for the millions of men and women who have sacrificed and suffered in the cause of freedom and for the millions who are yet to guard and preserve it.

Ex-President Taft says today: "All the plans which our people have been formulating in their minds for the settlement of this war need for such a complete and unconditional surrender." They are calling Germany to the bar of world justice. Were the present proposal accepted, the criminal convict would be invited to the dock, but to the counsel table.

"The President is under no obligation to yield to the proposal because of his message of January 8, or because of his last note. The message of January 8 was written to state general objects, and not to define stipulations to be accomplished these fine stipulations were written nine months ago, and Germany's conduct since then has placed her outside the pale of negotiation."

United States Senator Lodge commenting on Germany's answer, says: "Mr. McAdoo and some of the press speak of the German note, if accepted, as a complete surrender. It is nothing of the kind. It is just the reverse. It is not a surrender and it is highly conditional. If we accept that note it means that Germany is invited to conquer the world at this moment and that we have lost the war."

"Our only assurance for what may be agreed to after weeks of discussion would be the German word and the German signature—both worthless. The President has said: 'We cannot accept the word of those who force us to sign upon us.' The government of Germany has not changed. The Chancellor has changed. Changing the Chancellor no more changes the German government than the President changing his Secretary of State would change our government. It is the same government with which we are dealing. We cannot come to terms." In that statement he was absolutely right.

Trying to Hint Defeat from the situation, says: "Germany is in the process of destruction at work, begs for time, her petition coming to us, to sign a peace proposal. She wants an armistice. Without going further into the matter, it is obvious that two results will doubtless flow from a cessation of fighting: The first is that the German government may even should we discover at the last moment that the German proposal was a complete surrender, another example of a pledged faith broken, once the fighting is stopped for any appreciable time the war will be over. It is hardly possible to conceive that, once arms are laid down, the German government will be gone. There will no longer be the spirit of fighting which victorious armies are made. The second point to note is that, if Germany is granted the time she wants and for which she will do anything, give anything, she will utilize it in withdrawing her arms, her munitions, her shells, and her men, to a much shorter and much more powerful line, a line possibly behind the Meuse, through the French and Belgian Ardennes, before Metz and down the Vosges Mountains, and there she will stay. She will have shortened the battle-front over a hundred miles and will be able to hold it with a million men. Everything that we have done since July 1st has thus been scrapped. Our losses will have been for nothing."

Either we shall stop fighting and make a patched-up peace, or the war

1,000 PERISH IN BIG FOREST FIRE OVER TWO STATES

Huge Paths of Flames Sweep Over Wisconsin and Minnesota Timberland

Duluth, Oct. 14.—A large section of Northeastern Minnesota—three days ago a busy and prosperous business and farming country—to-day was a smoldering ruin with hundreds of bodies of men, women and children, many of them burned beyond recognition, strewn about the countryside, as the result of the disastrous forest fires which swept this territory Saturday and Sunday.

Latest estimates place the death toll at close to one thousand, although no official figures were available early to-day. Hundreds of persons are more or less seriously burned, thousands destitute and homeless and the property loss will run into many millions of dollars.

BOND BUYERS DENOUNCE SLACKERS

(Continued From First Page) tees which are to comb the city went to work to-day. The campaign last week was apparently only half-thorough cursory in its thoroughness. Many homes were missed. Many men of means were permitted to rush to banks, buy a \$50 bond, get a flag and button and a reputation for being "real."

Banks Ask For Information The banks of the city are to be asked for complete details as to subscriptions. They may not "come through," but it is desired to know just who "slipped through."

Enola Has Pinch Hitters Foreman reports the formation of "The Pinch Club," composed of workmen who are going to bid again for the Liberty Loan. All of the "pinch hitters" have already bought bonds, but so that the district will not fall down they are buying again.

There were reports to-day that some Harrisburg people have refused to buy bonds "because peace is near." This thought is declared ridiculous by men close to the heart of things.

"Peace can't possibly come before late next summer," said one of the executive committee, "and in the meantime this \$6,000,000,000 has already been spent—so what's the use of talking?"

At the Harrisburg Pipe and Pipe Bending works many foreign-born employees among others are citizens of Austria, Bulgaria and other countries in the war. In the past they have shown their loyalty to their adopted country by making large subscriptions to the loan. Among these is one Austrian, a naturalized American who subscribed \$2,000, one Bulgarian, \$1,500, and one Armenian \$2,200. These subscriptions represent the savings of these men for the last two or three years.

MOTHER OF DEAD SOLDIER AIDS LOAN

(Continued From First Page) er wreck the peace of the world again. "I think we folks at home should gladly do everything we can, because no sacrifice we can make is equal that of the boys who have died. "We are now being asked to loan our money to the United States—that's all. Lots of people haven't done it—I don't know why. I don't understand them. "When the boys get the order to go over the top they don't stop to ask themselves if they can afford it—they go on over. "I think it is terrible that our Government must plead with us people in Harrisburg to buy Liberty Bonds. I don't know what some people mean—I think they should be ashamed. "My boy is dead, but he is still with the Americans—I mean the hundreds of brave boys who have died and are watching us to-day, and who are glad when we do what we can to win the war, but who must be very sorry when we do not. "Does your boy think it is right? Show it by buying Liberty Bonds. "Mrs. Elizabeth K. Sullivan."

Not Pneumonia, but Pneumonic Plague, Physicians Declare

Philadelphia, Oct. 14.—Physicians of the highest repute, confident that the hundreds of deaths attributed to pneumonia within the period of the recent epidemic, have been caused by a strange disease which is not a true type of pneumonia, are conducting exhaustive investigations, not only in Philadelphia, but in every large city in the East. There is a theory that the disease is the pneumonic plague, which ravaged Manchuria and the East, and came out of the East, with Russia and Germany the first of the European countries to be ravaged. The peculiar conditions which have followed death have emphasized the impression that death is due to something other than true pneumonia.

GERMAN ATTACK FUTILE AGAINST AMERICAN FIRE

Artillery Supports Infantry, Bringing Small Hun Offensive to Halt

With the American Forces North-west of Verdun, Oct. 14.—Violent artillery actions were in progress to-day along the greater part of the American front. Little change was made in the line, but the Germans late last night laid down batteries that were preparatory to counterattacks of a small but vicious character.

The most determined effort made by the enemy was on the left, made by the river Aire between St. Juvin and St. Georges. The Germans advanced in open order and fought with a steadiness that indicated fresh troops. Within an hour, however, the American artillery, supporting the line of infantry with machine guns, had brought the little offensive to a halt.

No Restriction Is Placed on Heating of Home

A letter from State Fuel Administrator William Potter to the local fuel administrator made public last evening removes apprehension on the part of householders regarding their future coal supply. The letter follows: "The State Fuel Administrator has made no restrictions whatsoever as to when furnaces shall be started in residences, apartment houses, or any buildings housing people. This is left to the judgment of each householder, and covers also the operation of steam heating plants in various communities supplying domestic consumers."

"In order to calm the apprehension that domestic coal now allotted, on the basis of last year with its terrible winter, may not take the household through this year ending March 31 next, owing to the early starting of fires incident to the influenza epidemic, this administration is confident that every careful domestic consumer in Pennsylvania, who has practiced economy and conservation of fuel, will be provided with sufficient coal to keep the home fires burning."

"We make this statement because, first—there is no scarcity of bituminous coal; second—we are assured by the Anthracite Committee of the U. S. Fuel Administration, composed of the greatest experts in the industry (Mr. J. B. Dickson, chairman of Dickson & Eddy, New York; W. J. Richards, president of Philadelphia and Reading Coal and Iron Company; S. D. Warriner, president of Lehigh Coal and Navigation Company), that the allotment of anthracite asked for by me will be given to this state to take care of all the domestic needs of its people."

Other towns that have been entirely destroyed include Rice Lake, Brookston, Brevator, Corona, Adolph, Thompson, Arnold, Moore Lake and Wright. The town of Twig, on the Miller Trunk road, was wiped out. The list of towns that are being entirely destroyed include Rice Lake, Brookston, Brevator, Corona, Adolph, Thompson, Arnold, Moore Lake and Wright.

The 23 Peace Points Set Forth by Wilson

Following are the fourteen points, containing essentials for peace, put forward in President Wilson's address to Congress on January 8 last: I.—Open covenants of peace, open arrived at, after which there shall be no private international understandings of any kind, but diplomacy shall proceed always frankly and in the public view.

II.—Absolute freedom of navigation upon the seas, outside territorial waters, alike in peace and in war, except as the seas may be closed in whole or in part by international action for the enforcement of international covenants.

III.—The removal, so far as possible, of all economic barriers and the establishment of an equality of trade conditions among all the nations consenting to the peace and associating themselves for its maintenance.

IV.—Adequate guarantees given and taken that national armaments will reduce to the lowest point consistent with domestic safety.

V.—Free, open minded, and absolutely impartial adjustment of all colonial claims based upon a strict observance of the principle that in determining all such questions of territory, population, or sovereignty, the interests of the populations concerned must have equal weight, with the equitable claims of the government whose title is to be determined.

VI.—The evacuation of all Russian territory and such a settlement of all questions affecting Russia as will secure the best and freest co-operation of the other nations in the world in obtaining for her an unhampered and unembarrassed opportunity for the independent determination of her own political development and national policy, and assure her of a sincere welcome into the society of free nations under instructions of her own choosing; and, more than a welcome, assistance also of every kind that she may need and may herself desire.

VII.—Belgium, the whole world will agree, must be evacuated and restored, without any attempt to limit the sovereignty which she enjoys in common with all other free peoples. No other single act will serve as this will serve to restore confidence among the nations in the laws which they have themselves set and determined for the government of their nations with one another. Without this healing act the whole structure and validity of international law is forever impaired.

VIII.—All French territory should be freed and the invaded portions restored and the wrong done to France by Prussia in 1871 in the matter of Alsace-Lorraine, which has unsettled the peace of the world for nearly fifty years, should be righted, in order that peace may once more be made secure in the interest of all.

IX.—A readjustment of the frontiers of Italy should be effected along clearly recognizable lines of nationality.

X.—The people of Austria-Hungary, whose place among the nations we wish to see safeguarded and assured, should be accorded the broadest opportunity of autonomous development.

Rupture Kills 7,000 Annually

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture. Why? Because the unfortunate ones had neglected themselves or had been merely by taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make FREE last right in the privacy of their own homes. The FLAPAO method of unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The FLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. It does what you work any while you sleep. No straps, buckles or springs attached.

No operation—no close the hernial opening as nature intended so the rupture CAN'T come down. Send your name and address to: FREE trial FLAPAO and the information necessary.
