McAdoo Points to Grave Situation in Problem of Raising War Fund

Washington, Oct. 17.—One billion

defining the success of the Fourth Liberty Loan. The nation had subscribed only \$3,269,001,500 by official tabulation to-day and three days remain in which to reach the six billion-dollar goal.

In the coming three days the merican people must decide whether the Fourth Liberty Loan shall be a success or a failure," said a astrement by Secretary McAdoo. "I would be fatal to minimize the gravity of the nation's problem."

Total subscriptions tabulated Saturday at the close of the campaign must total at least \$4,500,000,000, officials said to-day, if the loan is to be fully subscribed. Belated subscriptions and final tabulations on the beais of previous loans may be counted upon to add one billion dollars to the total, but it was emphasized that to-day and to-morrow are the critical days in the campaign.

are the critical days in the campaign.

Regardless of peace talk and even should Germany completely agree to the Allied peace terms, it was pointed out to-day the loan must be subscribed. Part of the six billion dollars already have been expended, and even should the war end at once, nearly two million troops in France must be cared for and returned home at government expense. Coincident with the receipt of a report that German prisoners in this country are buying Liberty Bonds, news came from France that when American soldiers capture Germans and find money upon them they advise immediately that the Germans invest it in Liberty Bonds.

# Complains That Sign

The Harrisburg Chamber of Commerce has sent the following telegram to Liggett and Myers Tobacco Company, New York:

"There is widespread adverse comment regarding Piedmont cigaretts sign being placed on wall of Senate Hotel in this city. Opinion is generally expressed that men might better be employed in essential work when war industries in all parts of the country because of labor shortage are seriously handicapped in producing munitions and supplies so urgently needed by our soldiers in the trenches. It is also felt that space might better be tillized at this time for advertising the Liberty Loan or some other vital war movement. Placed as it is is, the sign is extremely offensive to the eye. If you are seeking publicity for your product, we believe that this sign will do ou more harm than good."

The sign covers the whole front of the Senate Hotel, and the telegram was sent after many complaints had been received by the Chamber.

Germany accepts all his terms and attaches the condition of such guarantees it is considered that hardly less could be expected of her. The two chief questions in the minds of public men are, is the German military power really so broken as to be ready to accept these terms? And the recurring question, what has become of the Kaiser?

The President was reading the lattest dispatches, making no comments and other officials were doing the same. The official air was surtillation to the same. The official was surtillation to the same.
