BERLIN WARMS UP AS REPLY TO THE U. S. IS DRAFTED

Dispatches Indicate Germany Will Try to Continue Conversation With America

By Associated Press. Berne, Oct. 18.—Germany's reply to President Wilson's latest communication was expected to be drawn up and dispatched to Washington last night, according to the latest advices received here from Berlin.

The semi-official newspapers in Germany indicate that it is certain that Germany in the note will seek to continue the conversation.

Advices received from Berlin are to the effect that there is great activity in political circles in view of the German reply to the note. It is understood the note is not a complete refusal of President Wilson's demands.

Field Marshal von Hindenburg was expected in Berlin yesterday.

Washington, Oct. 18.—Germany is beaten. The victors are now in a hard fighting of the Allied armies has produced demoralization not alone in the German war forces, but in the machinery of civil government.

The next German note to President Wilson is expected to be a plea for concession to the German people. In the meantime revolutionary changes in the governments of both Germany and Austria are under way to make it possible for these nations to plead for consideration for the German and Austrian peoples, regardless of the crimes committed by the war lords and the German people.

It is no longer possible to regard the German peace overtures as mere subterfuges. The best informed authorities of the government are convinced that Germany desires peace upon any terms that will leave the German people free to continue their national existence under their own government.

Kaiser's Abdication Expected The abdication of the emperor as a voluntary act to avert threatened revolution is seriously expected.

The change in the German constitution which takes away from the emperor the war and peace making powers is a step in the direction of abdication.

Boy Scouts Have Sold Bonds Worth \$64,600

Scout Headquarters still teems with excitement and industry on the results as the bond drive. Up to noon to-day the boys had secured 146 subscriptions for a total of \$64,600.

The leaders in the triangular race for supremacy have changed positions, but the figures vary from hour to hour as the boys do their best in city in search of the prospective buyer. Just now the record stands as follows:

Ralph D. Huston, 30 sales for \$1,800. Donald Royal, 29 sales for \$2,500. Karl Moelesin, 28 sales for \$1,550. As the race is not over until tomorrow and each of the leaders declares he will not take anything but first place. The final result will be interesting.

So far there are 7 scouts who have sold 20 or more bonds and 42 who have sold 10 or more. This means that by to-morrow there will be at least 60 scouts who will have won the coveted Treasury Department medal for the sale of ten or more bonds.

Hummelstown Citizens Make Interesting Complaint to the Public Service Board

Declarations to the effect that the public service corporation should in justice bear a share of the losses in war time and that in these "trying conditions" men have trouble to meet obligations are made in a complaint filed with the public service corporation by residents of Hummelstown against the service and meter charge of the Hummelstown Gas and Fuel Company, operating in eastern Dauphin county. A long list of customers presents the complaint.

The city of Wilkes-Barre and the Wilkes-Barre Chamber of Commerce to-day filed complaint against the new gas rates of the Wilkes-Barre company. Louis Franke, mayor of Johnstown, and councilmen of that city, attacked the rates and service of the Johnstown Traction Company, alleging that the cars are not sufficient, the schedules not maintained, employees discourteous and service not up to requirements.

Adjutant General Beary, who has been on a tour of the afflicted districts in the anthracite region, has directed additional canvass and cots to be sent to centers of influenza.

West Shore Women Are Doing Much Relief Work; Precautions Are Urged

Camp Hill, Pa., Oct. 18.—The women of the West Shore are doing wonderful work for the relief of the sick and the suffering. The influenza epidemic has brought out a fine community spirit. A very large majority of the women of the town and indeed of the whole west shore district have responded nobly to the emergency and as one well-known citizen said to-day "there are no slackers among the women of the west shore; they are all deserving of the utmost praise."

Mrs. John Sweeney, district chairman of the Division of Child Hygiene Council of National Defense, has received from Miss Mary Boole, the county chairman of Carlisle, urging that parents be instructed as to the best methods of treatment of influenza. Sweeney has undertaken to see that the movement is given proper attention in the lower end of Cumberland county.

Plenty of fresh air by means of open windows in the home is urged, and parents are urged to keep their children outdoors, properly protected of course, as many hours a day as possible. "From the dawn of sunlight are the most effective preventatives known," says the committee's instructions. Crowds, especially indoors are to be avoided, as are persons who cough and sneeze. Members of households developing colds should be separated from the others. Separate drinking cups, windows and nose when coughing or sneezing, putting to bed of patients at first sign of illness and the early summoning of a physician are among the precautions urged.

From Camp Hill to the river and from Enola to New Cumberland relief work on an organized scale is being conducted.
