

### ARMORIES GO TO UNCLE SAM NOW

#### State Turns Over Properties to Student Classes Throughout the Commonwealth

State Armories not in use for emergency hospitals because of the influenza epidemic are being turned over to the United States Government for use of students training classes in commonwealth armories. Practically every armory in a place where there is a college or advanced school where the War Department has started a training class has been turned over to the national authorities by the State Armory Board.

In places where the armories are in use for hospital use arrangements will be made later for their use by students enrolled in army classes or where high schools are being given instruction in military matters. These armories are also in use by units of the Reserve Militia.

**Wheat Aways Up**—Pennsylvania's acreage sown to wheat will equal and possibly exceed the record breaking total of 1,540,000 acres reported cut this year according to reports which are coming to the State Department of Agriculture. In many districts tractors have handled the plowing and drilling and made up for the shortage of farm labor due to the war and industrial demands. The acreage given to wheat in Pennsylvania has shown a marked advance in the last few years. It went from 1,338,000 in 1916 to 1,373,500 in 1917 and the 1918 report showed 1,450,500 acres. There will be a big increase in rye and buckwheat acreage compared to former years.

**Certificates Filed**—The Public Service Commission has announced the filing of the following certificates of notification: Mercer Water Co., Mercer, bonds \$25,000; Pennsylvania Utilities Co., Easton, notes \$115,000; Kittanning Telephone Co., Kittanning, common stock \$5,000; Clark's Ferry Bridge Co., Duncannon, bonds \$10,000; Eastern Pennsylvania Railways Co., Pottsville, bonds \$136,500.

**State Leases Buildings**—The State Board of Public Grounds and Buildings has leased the old United Evangelical Publishing House at Second and Locust streets for additional offices. The building is owned by Rosenberg, Fishman and Handler and will be altered to provide offices for some of the departments which are now crowded, while some which are in the section of the Capitol used by the Legislature will probably be given quarters when the work is finished. The remodeling to suit the building for offices will be an expensive proposition owing to the cost of materials.

**Woodward Here**—James F. Woodward of McKeesport, Republican nominee for Secretary of Internal Affairs, who was here yesterday, said that Allegheny county would give a fine majority for the whole Republican ticket and elect Republican legislators. Mr. Woodward served as chairman of the appropriations committee in the last two Houses of Representatives.

**May Set Aside Law**—While no formal statement has been made in regard to the manner in which the federal railroad administration will consider the "full crew" law in operating railroads in Pennsylvania during the war there is reason to believe that emergency regulations will be made which will virtually set it aside. The formal action will likely be taken in the next few days down recently by the Public Service Commission holding that the Pennsylvania railroad had violated the "full crew" law in the handling of trains on what is known as the Sewickley and Bushy Run branches. In these cases the company claimed that it was a yard movement, but the commission declined to accept that view and directed that the num-

ber of men required under the act for the size of the trains handled be employed. At the same time the Reading was found not to have violated the rule in movements at Mahanoy Plane. Prior to these decisions which were in cases brought by the Brotherhood of Railroad Trainmen the Commission had held the Pennsylvania and other companies must observe the "full crew" act. In the event that the Federal Railroad Administration decides not to observe the regulations it will bring about an interesting situation.

**May Not Take Votes**—Determination will be reached to-night by Governor Brumbaugh as to the course to follow in regard to naming commissioners to take the voting of Pennsylvania soldiers in camps. Returns from 118 camps show 45,430 Pennsylvanians in those camps on October 15 with chances that the number of men in others will be very small. Some of these men may move before election day, while certain of them are probably under 21 years of age. Special ballots and supplies have been prepared for the taking of the vote by commissioners. As yet 215,000 Pennsylvania men are in the service and there are only 45,000 reported in camps, the Keystone State has over a quarter of a million men overseas in opinion of officials here.

**Boroughs Complain**—The boroughs of Miners Mills and Hughes-ton to-day complained against the high fare rates of the Westmoreland and the borough of Meyersdale against the new rates of the Meyersdale Electric Light, Heat and Power Co.

**Big Payments**—The Philadelphia Rapid Transit Co. to-day paid the state \$118,000 as its gross receipts tax. The Delaware and Hudson Co. paid \$73,000 as state tax and the South Penn Oil Co., \$185,000.

**Last Day Rush**—This was the last day for candidates to withdraw from Congressional and Legislative offices and the following were filed: David W. Phillips, Washington, Twenty-second senatorial, Lackawanna; N. Homer Smith, Socialist and Prohibition, Fifth Lackawanna; William Caldwell, C. L. McKee and J. L. Milligan, Prohibition, Washington county; John Allhouse and David Blackburn, Democrats, and William H. Martin, Washington, Tenth Allegheny. Some of the withdrawals were dated several days ago.

**To Add New Rates**—The Bell Telephone Company, has filed an application with the Public Service Commission to increase rates as required by the federal authorities without the usual thirty days notice. The matter will be considered at the executive session to-day.

**New Justice**—J. Warnock McElheny was appointed justice for Hope-well, Beaver county.

**New Charges On**—The Algelica Water and Ice Company, operating in Reading and vicinity filed notice with the Public Service Commission of a readiness to serve charge ranging from \$3 to \$80 a year according to size of meter.

### Steelton News Items

#### MORE NURSES ARE NEEDED

#### Work of Emergency Hospital Handicapped by Lack of Help

The decline of the influenza epidemic in Steelton is no sign that help is no longer needed at the Emergency Hospital according to the army physicians in charge. While the influenza was at its worst there was plenty of volunteer help, but now that the epidemic is definitely under control volunteers evidently are not needed. This supposition is a mistake. Help is needed and needed very badly, and unless help is forthcoming immediately there will be serious suffering at the hospital. Nurses and nurses' aids are the most in demand.

Help is also needed in the hospital laundry, and for the work the Red Cross Chapter of Steelton has offered to pay and is willing to arrange suitable hours for those who will volunteer.

Accurate information as to the number of cases now in Steelton is available, as very few of the physicians seem to have the time to make out complete reports, and some few indeed seem not to be inclined to do so. This state of affairs makes the work of the board of health very difficult and is to be regretted. Fifty new cases were reported Sunday night, but according to the health officer this report is by no means accurate.

At the emergency hospital there are now 79 patients being treated, with five deaths during the night and morning.

In addition to the hospital work the army physicians are now helping the overworked local physicians and treating patients in their own homes.

The cases treated at the emergency hospital are mostly those of patients who for various reasons could not secure the proper attention in their own homes, or where a number were sick in the same house. An example is that of the Banks family, in which the parents and nine children were taken sick at about the same time. The whole family is now being treated at the hospital.

#### Lieut. H. F. Critchley Dies With Pneumonia

Lieut. Horace F. Critchley is reported dead at Fort Sill, Okla., according to a message received last night by his mother, Mrs. Frank O. Critchley, of 31 South Fourth street. Lieut. Critchley had been ill for about a week, but his condition was not considered serious until last Friday, when his parents were notified of his critical condition. His father left immediately for the bedside of his son, but evidently arrived too late to see his son alive.

Lieut. Critchley is a graduate of the Steelton High school class of 1909 and of the Pennsylvania State Forestry school at Mt. Alto. About a year ago he entered the officers training school at Fort Niagara, and received his commission, after which he was sent to Camp Custar, Mich., and then to Fort Sill, Okla., where he was located at the time of his death.

He is well and favorably known throughout the state and was prominent in Masonry, being a member of the lodge at Renovo, the Harrisburg Consistory, Zomba Temple and Pilgrim Commandery Knights Templar.

Besides his parents in Steelton, he leaves a sister, Mrs. Frank McLoughlin, and a sister, Miss Mildred, in Seattle, Wash. The body will be brought here for burial.

#### More Questionnaires to Be Sent Out Soon

Washington, D. C.—Classification by local boards of men of the new draft registration has been so rapid that questionnaires soon will be sent to youths of 18 and men between

37 and 46 years of age. Though they were required to register on September 12, no action had been taken as to these classes because of the intention to defer calling them for service until all other available material had been exhausted, and local boards were ordered not to send them questionnaires.

### "The Live Store" "Always Reliable"

## Why Buy Poor Clothes?

The only reason we know why men buy poor clothes is because they're looking harder at the price than at the quality of the garments — They forget that if there's five or ten dollars difference in the price there must be at least that much difference in quality.

And most men will agree that it is worth the extra five or ten dollars to know that their clothes are made right so that they give the long service that they want.

You're sure to get all you expect if you come to this "Live Store"—The clothes we sell assure you that you'll get long wear and satisfaction; our guarantee of satisfaction assures you that you'll get your money's worth and more.
