

14 PEACE POINTS ARE MISCHIEVOUS, ROOSEVELT SAYS

Former President Protests Against Principles as a Basis For Peace

Oyster Bay, N. Y., Oct. 25.—Theodore Roosevelt sent duplicate telegrams last night to United States Senators Lodge, Poinsett and Johnson in which he characterized as "thoroughly mischievous" the fourteen principles enunciated by President Wilson if they are to be made the basis of peace. The telegrams follow:

"As an American citizen I most earnestly hope that the Senate of the United States, which is part of the treaty-making power of the United States, will take affirmative action against a negotiated peace with Germany and I favor a peace based on unconditional surrender of Germany. I also declare against the adoption in their entirety of the fourteen points of the President's address of last January as offering a basis for a peace satisfactory to the United States. Let us dictate peace by the hammering of guns and not chat about peace to the accompaniment of the clicking of typewriters.

Fourteen Points Mischievous.
"The language of the fourteen points and the subsequent statements explaining or qualifying them is neither straightforward nor plain, but if construed in its probable sense many, and possibly most, of these fourteen points are thoroughly mischievous and if made the basis of a peace, such peace would represent not the unconditional surrender of Germany, but the conditional surrender of the United States. Naturally they are entirely satisfactory to Germany and equally unsatisfactory to every pro-German and pacifist and Socialist and anti-American so-called internationalist.

"The only peace offer which we should consider from Germany at this time is an offer to accept such terms as the Allies, without our aid have imposed on Bulgaria. We ought to declare war on Turkey without an hour's delay. The failure to do so hitherto has caused the talk about making the world safe for democracy to look unpleasantly like mere insincere rhetoric. While the Turk is left in Europe and permitted to tyrannize over the subject people the world is thoroughly unsafe for democracy.

An Ally, Not Associate

"Moreover, we should find out what the President means by continually referring to this country merely as the associate instead of the ally of the nations with whose troops our own troops are actually brigaded in battle. If he means that we are something less than ally of France, England, Italy, Belgium and Serbia, then he means that we are something less than an enemy of Germany and Austria. We ought to make it clear to the world that we are neither an untrustworthy friend nor an irreconcilable foe. Let us clearly show that we do not desire to pose as the umpire between our faithful and loyal friends and our treacherous and brutal enemies, but that we are staunch ally of our friends and the staunch foe of our enemies.

"When the German people repudiate the Hohenzollern dynasty and until then it will be time to discriminate between them and their masters. I hope the Senate and the House will pass some resolution demanding the unconditional surrender of Germany as our war aim and stating that our peace terms have never yet been formulated or accepted by our people and that they will be fully discussed with our allies and made fully satisfactory to our own people before they are discussed with Germany."

It's Better to Buy One Good Overcoat, Mr. Man!

The government has its eagle eye on the overcoat situation in the interest of wise woolen conservation, and we absolutely indorse its program. Good overcoats have never depended upon needless folderols of fashion for their style supremacy.

We have always contended that it is better to buy one GOOD overcoat than two of inferior quality to secure the same service.

This Fall we believe more men than ever will practice wise economy and co-operate with the Government in its plan of conservation by purchasing such garments as will give the utmost in service.

Our overcoat stock is a notable one, abounding in handsome garments of this character.
