

ARMY AND NAVY RALLY TO AID OF WAR WORK DRIVE

Men Who Know Appreciate Support Given Fighting Men

The Army and Navy have rallied to the support of the United War Work Campaign to raise \$170,500,000 for the fighting men. Secretary of War Baker and Secretary of the Navy Daniels have volunteered to serve on a National Army and Navy Advisory Committee to carry the drive into military and naval camps and aboard ships.

"On my return from Europe," Secretary Baker writes to John R. Motley director general of the campaign, "I am more than pleased to learn of the successful progress which you have made in projecting the plan of the United War Work Campaign. I have received most gratifying reports of the splendid spirit of co-operation on the part of the Young Men's Christian Association, Young Women's Christian Association, National Catholic War Council, Jewish Welfare Board, War Camp Community Service, Knights of Columbus, Salvation Army, American Library Association and other agencies. The proposal to extend to all of the military camps large and small meets with my hearty approval."

Secretary Daniels, writing of the seven war work agencies, says: "I would find it difficult to ever state my sense of appreciation of what their varied and practical ministry to the body, mind and spirit of our fighting forces means in the accomplishment of the great purpose before us in this war."

Serving with Secretary Daniels and Secretary Baker on the Army and Navy Committee are: General Peyton C. March, Chief of Staff; Major-General George Barnett, Commandant of Marine Corps; Admiral William S. Benson, Chief of Naval Operations; Benedict Crowley, Assistant Secretary of War; Frederick P. Keppel, Third Assistant Secretary of War; Paymaster Samuel McGowan, Chief of the Bureau of Supplies and Accounts; Admiral Leigh C. Farmer, Chief of the Bureau of Navigation; Franklin D. Roosevelt, Assistant Secretary of the Navy; and John D. Ryan, Second Assistant Secretary of War.

Sent Coffin to Ill Husband, Then Fled

Boston, Mass., Oct. 25.—After purchasing a \$40 coffin for her husband, lying ill at the Massachusetts General Hospital, and turning a deaf ear to his entreaties to come to him, Mrs. Alvina Simonella disappeared from her home and has not been heard from since. She has gone to Philadelphia, according to friends.

The husband, David Simonelle, was near death. A priest who visited here at the behest of the sick man pleaded with the pretty wife without result.

San Francisco Compels Everybody to Wear Masks

San Francisco, Oct. 25.—An ordinance compelling the wearing of gauze masks as a means of preventing the spread of the influenza epidemic was passed yesterday by the board of supervisors at the request of the board of health.

Penalties for violation are fines ranging from \$5 to \$100, or ten days' imprisonment or both. The ordinance is immediately effective. Masks may be discarded only in homes or during meal times. The total number of influenza cases in California passed 50,000 yesterday.

SPANISH INFLUENZA IS EPIDEMIC HERE

Many Cases Develop Into Deadly Pneumonia. Easier to Prevent Than Cure. How to Avoid.

The constant daily increase of Spanish influenza reported by local physicians shows clearly that many people are failing to take the simple ordinary precautions necessary to avoid infection. For, while influenza, after its development, is sometimes difficult to cure, it is an easily prevented disease.

The best plan is to begin treatment before the first symptom starts. For no other disease will develop so quickly or spread so rapidly. You may feel fine to-day—be sick to-morrow and lose a week or more of work. You will indeed be fortunate if pneumonia does not develop.

The air to-day is full of influenza germs. Every breath you take is likely to draw them into your nose and throat. You can prevent the disease by killing the germs before they spread throughout your body. There is probably no safer or surer way to do this than to go to the nearest drugstore and get one of the famous Hyomei Inhalant Outfits consisting of a bottle of the pure Oil of Hyomei and a little vestpocket, hard rubber inhaling device into which a few drops of the Oil of Hyomei are poured.

Just breathe this Oil of Hyomei deep into your nose, throat and lungs and every particle of air that enters your breathing organs will be charged with an antiseptic, germ-killing balsam that will absolutely destroy the germs of influenza that have found lodgment there.

You can't do this too often. No ordinary night and morning gargling or throat spraying will be sufficient so long as during the day you come in constant contact with infection. The Hyomei inhaler is small and can be conveniently carried in a handbag or vestpocket. Every half hour or so throughout the day take it out and draw a few breaths of its pure healing air into your nose and throat. By doing this you can prevent infection and check the further spread of the disease, even though you are coming in direct contact with it.

This is an inexpensive treatment as the inhaler will last a lifetime and further supplies of the Oil of Hyomei can be had at any drugstore for a few cents.

NOTE: Oil of Hyomei, so strongly recommended above for the prevention of Spanish influenza is not a new discovery but is the application of an old and time-tried treatment to a new disease. Hyomei has been a standard in the treatment of catarrh and colds for almost twenty years and is sold by druggists everywhere. Hundreds of people in Harrisburg and vicinity keep a Hyomei outfit with inhaler on the bathroom shelf for regular winter use. If you have one get it out now and use it. If you haven't one, go to the nearest drugstore and get one to-day. It is the duty of every person, not only for his own sake but for the community to do all in his power to prevent further spread of this epidemic and to stamp it out. H. C. Kennedy.

Spend Your Money on Clothes That Save

There's one thing this war is doing for every one of us — Making us careful of our dollars — Men are not spending their money heedlessly on any suit that looks good; they know that what's the most important is the fabric, the designing and tailoring that not only makes for "good looks," but also guarantees good looks for a long period of wear.

But men cannot trust themselves to be the final judge of quality in fabric or tailoring. They look to the reliability of the maker and the seller as their final guarantee — So we have always felt it an obligation on us to sell only the best that we knew to be dependable — In
