## Finds Cure for Rheumatism After Suffering Fifty Years!

tored for rheumatism ever since I came out of the army, over fifty years ago, Like many others, I spent money freely for so-Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stift I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are sur-prised at the change."

## HOW IT HAPPENED.

HOW IT HAPPENED.

Mr. Asheiman is only one of thousands who suffered for years, owink, to the general belief in the old, false thoory that "Uric Acid" causes rheumatism. This erroneous belief induced him and legions of unfortunate men and women to take wrong treatments. You might just as well attempt to put out a fire with oll as to try and get rid of your rheumatism, neuritis and like complaints, by taking treatment supposed to drive Uric Acid out of your blood and body. Many physiciars and scientists now know that Uric Acid never did, never can and never will cause rheumatism; that it is a natural and necessary constituent of the blood; that it is found in every new-born babe, and that without it we could not live!
