

TOTAL DEFEAT OF GERMAN ARMY NEAR; YANKEE VICTORY GROWS IN MAGNITUDE; AUSTRIA'S SURRENDER UNCONDITIONAL

DUAL MONARCHY OPENS WAY TO GERMAN BORDER

Large Part of Fleet and Immense Stores Are to Go to Allies

BASEL, Nov. 4.—Emperor Charles of Austria-Hungary is determined to abdicate and will retire to Switzerland, German newspapers say.

Washington, Nov. 4.—Terms of armistice under which the land and sea forces of what once was the Austro-Hungarian empire have laid down their arms were announced today simultaneously in Washington and the Allied capitals.

From this drastic document, it may be stated, was gleaned an accurate outline of the conditions nearing completion in the Supreme War Council at Versailles under which Germany may have a cessation of hostilities.

To Use Austrian Railroads The terms under which the debacle on the Italian front ended today at 3 p. m. (9 a. m. Eastern United States time), include complete demobilization of Austrian forces, surrender of one-half of all artillery and military equipment; occupation by American and Allied forces of such strategic places as may later be selected; use of Austrian railroads for operations against Germany; evacuation of all invaded territory, leaving behind all equipment and supplies, including coal, surrender of a portion of the Austrian surface and submarine fleets and disarmament of others under American and Allied control, surrender of all German submarines in Austrian waters and repatriation of Allied and American prisoners without reciprocity.

Allies Reserve Right to Occupy Evacuation of Austrian territory roughly corresponds to the boundary lines claimed by Italy under the Italia Irredentia, or treaty of London program. The right of occupation by Allied forces is reserved, local authorities to maintain order under Allied supervision.

The terms of the armistice are to be carried out under the direction of Marshal Foch, who will designate material to be turned over and supervise the movement of Austro-Hungarian forces to the rear.

All German troops in Austria-Hungary, Italy or the Balkans must be out or interned within fifteen days.

Property Destruction Forbidden Destruction of any property by retreating forces is specifically forbidden.

Ships to be surrendered include fifteen modern Austrian submarines, three battleships, three light cruisers, nine destroyers, twelve torpedo boats, one mine layer and six Danube monitors to be designated by the Allies. All other war craft are to be concentrated and disarmed under Allied direction.

Free navigation of all Austrian waters by both the war and commercial fleets of the Allies is provided for.

To Dismantle Fortresses The Danube route is to be kept open by the occupation or dismantling of fortresses to be selected by the Allied commander. The existing blockade of the Allies against Austria remains unchanged, Austrian ships being liable to capture where found except where a commission to be named later, provides otherwise.

All enemy naval aircraft are to be put out of commission and concentrated under Allied control. All Austrian harbor and other equipment in occupied Italian ports is to be left untouched.

All fortresses protecting Austrian naval bases or stations are to be occupied and the arsenals at Pola specifically surrendered.

All Allied craft held by Austria are to be returned immediately. The only organized military force Austria is permitted to retain is limited to that necessary to maintain order in her own borders.

AUSTRIA GIVES ALL TO END HOSTILITIES

Washington, Nov. 4.—The terms of the Austrian armistice, with parenthetical explanations of minor errors in cable transmission, were announced by the State Department. Following are the terms which will go into effect at 3 o'clock to-day, (9 a. m. Eastern United States time): Military Clauses: Hostilities Must Cease One—The immediate cessation of hostilities by land, by sea and air.

Break Takes on Aspects of Rout West of Meuse; Yankees Within 14 Miles of Sedan, Center of Hun Rail System in Eastern France

LONDON, Nov. 4.—At dawn to-day British troops south of the Scheldt river attacked on a wide front, according to a report received from Field Marshal Haig. The report says the attack has been launched satisfactorily.

Germany deserted by her Allies, apparently is facing a great disaster on the western front. There is a greater possibility than ever that the hour of Germany's military doom may not be far distant.

Break Turns to Rout This crisis has arisen during the past three days. American and French attacks west of the Meuse river, which seemed to be doing but little, apparently sapped the strength of the enemy. When the break came on Saturday, it took on aspects of a rout. American contingents are in Belval wood six miles directly
