IS EVERYBODY USING TONSILINE!

The Spanish influenza epidemic has meant a wonderful increase in the sale of Tonsiline—The National Sore Throat Remedy. The moment medical authorities advised frequent use of an effective gargle to sterilize the throat, which these deadly germs must use as a gateway and breeding ground in entering the body, countless families went to their medicine shelf or sent to the nearest druggist for a bottle of Tonsiline.

Also, the majority of those afflicted with this dreaded malady found themselves suffering from decidedly sore throats and many of them have renewed their faith in this time tried remedy.

For more than a quarter of a century Tonsiline has been relieving most of the sore throats in the territory where it was sold. This record stamps it as being particularly indicated right now as a preventive and relief in doing its share toward ending the present situation. It is as safe as a Liberty Bond.

AMERICANS HAVE STRONG NERVES

Nervousness and Nerve Troubles on the Decline

"Nothing wrong but your nerves," is a saying that is fast dying out in this country. While nerve trouble is no organic disease, a leading nerve specialist remarked: "man or woman might better break a leg than have a shattered nervous system."

Overwork and worry drains the nerve cells of their reserve strength and food, and then follows the sleepless night, indigestion, poor appetite, impure blood and general nervous breakdown. The thing to do in such cases no longer troubles doctors and their patients who know from their own experience the value of Phosphated Iron. They know that a few weeks' regular use of this nerve food and red blood builder will strengthen and brace up the whole nervous system.

In every section where Phosphated Iron has been used there has been a big decrease of nerve troubles and will prove a welcome relief to any sufferer. You insure a system and their patients getting the genuine Phosphated Iron we have put up in capsules only. Do not take pills or tablets. Insist on capsules.

Dizzy—Wrecked His Automobile

"Two years ago my stomach trouble got so bad that I was almost constantly filled with gas. This made me very dizzy at times. Last Fall I was almost overcome by one of these dizzy spells while driving my car, and ran it into a telephone pole, badly wrecking the car. A friend recommended Mayr's Wonderful Remedy for my trouble. Since taking the first dose, I have felt improved, and feel better now than ever in my life. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

RABBITS JUMP BEFORE HUNTERS

Dr. Kalbfus Reports Numerous Cottontails Are Being Shot Nowadays

"There seem to be plenty of rabbits in Pennsylvania and the hunters have been getting lots of them," remarked Dr. Joseph Kalbfus, secretary of the State Game Commission, today regarding the small game season.

This season opened on the first and many cottontails have been shot. There are reports of fair quantities of wild turkeys, but we have not commenced to hear much about them.

The wild turkey season will open on November 15. The limit is one to each hunter. In the last few years the state has purchased quite a number of turkeys and they have been sold in scattered counties. The pheasant propagation work undertaken by the state in the last few years has brought good results, says Dr. Kalbfus.

NEW RULINGS IN COMPENSATION

State Board Makes Decisions in Regard to Agreements and Surgical Expenses

The State Compensation Board in an opinion by Commissioner John A. Scott makes a decision in regard to independent contractors in the claim of Kelley vs. Lackawanna railroad, in which the decedent was killed while boring a tunnel in a mine. Kelley was a co-partner in the firm which had a contract and the opinion says that the contractors "were responsible to the defendant as the sufficiency of the result to be accomplished, measured by the requirements of their contract."

In a decision in Brady vs. Booth, Clarion county, it is held that a man engaged to paint or decorate a room is a casual employe and does not come under the contractors act. The Board dismissed the appeal in Mathews vs. Patridge, Pittsburgh, the "unreasonable conduct of the claimant in refusing to carry out the suggestions and advice of the doctors" being declared the material factor in extending his disability.

The Board adds "it is not the purpose of the compensation act to encourage such conduct on the part of any injured employe." The Board makes the observation in suggesting a new agreement in Heinrich vs. Pressed Steel Car Co., wherein compensation was allowed for injury due to a shell falling on man's leg. "We can see no good reason why the agreement should not provide for the reasonable cost of medical or surgical services. Such agreements ordinarily do not contain stipulation for payment of such expenses."

"Improved Wonderful"

This Is How a Sufferer From a Nervous Breakdown Puts It

"I consulted my druggist, Mr. Charles, at Litz, Lancaster, Pa., and upon his advice I bought Tonall for my nervous breakdown," says Howard J. Smith, a farmer, aged 35 years, living on R. F. D. No. 1, Litz. "I had been weak, lacked appetite and could not sleep. By using Tonall I am improved wonderfully. SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

COOPER'S BENNINGTON

Spring Needle Underwear

One minute after you come out from underneath the cozy blankets and put on a "Cooper" union or two-piece suit — You can feel the blood circulating throughout your system, try it — "Cooper's" is the kind of underwear that sticks close to your ribs and muscles of the body acting as a stimulant from head to toes, defying the cold better than any other underwear you've ever worn.

Unless you are a wearer of "Cooper" underwear you are not getting that lasting comfort and complete satisfaction that can be yours at a "less cost" than we know you are willing to pay — for "Cooper's" is "three year" underwear, (notice the economy) knit with spring needles, takes a

"Mile More Yarn"

Than ordinary underwear. Therefore has the stretch and "come back" quality — If you complain of the cold during the severe winter months about being cold you're not a "Cooper" man for there is nothing but pleasant memories when you wear "Coopers."

We'll show you our faith in this underwear, we've devoted an entire window to it this week. If it were not a worthy product this "Live Store" wouldn't waste much time, energy or invest much money in it.

We have sold "Cooper's" the past ten years in a "mild form" because we couldn't get as much of this fast selling underwear as we were able to dispose of — We depended in a measure on large wholesalers and distributors to supply our demands, now the manufacturers are selling us direct because they realize we can handle larger quantities than most wholesalers.

"Cooper's" Union & Two Piece Underwear

Case after case has wended its way to this "Live Store" and although the weather has been mild our sales have been enormous— Many merchants have "little or no" wool underwear in stock to-day due to present conditions, but at DOUTRICH'S you will find larger stock quantities than at any time in the history of the store — We made up our minds months ago when we placed our order for "Cooper's," that if money could buy it, there would be at least "one store" that would be in a position to supply it — Here you will find plenty of wool underwear in regular and stout sizes, union and two-piece suits.
