LATEST RETURNS GIVE SENATE TO THE REPUBLICANS

Newberry Leads Ford in Michigan; Nugent Ahead of Rival in Idaho Race

Washington, Nov. 9.—A Republican majority in the next Congress at least two in the Senate and not less than 43 in the House was assured from returns last night from the scattering doubtful districts of last Tuesday's elections.

Word from Detroit of the election in Michigan, upon almost complete unofficial returns, of Truman H. Newberry, Republican candidate for the Senate, over Henry Ford, Democrat, increased the Republican Senate roll to 49—a bare majority. The Democrats have 46, with the Idaho contest between Senator Nugent, and former Governor Gooding in doubt.

On the face of now complete unofficial returns the political line-up of the next House is as follows: Republicans, 239; Democrats, 134; Independent, 1; Socialist, 1.

More German Atrocities

The many stories that have been coming to us with unheeded regularity of the many German atrocities in the theater of war, the destruction, the devastation, the horrors perpetrated by the millions of the Beast of Berlin, are but forerunners of what OUR boys will have to tell us when they get home again.

They have been there, have seen with their own eyes; yes, have even experienced the wantonness, the terrible cruelty of the Hun. These same boys have gone through hell and worse than hell that this country may never experience what Belgium and France are now experiencing.

They have given their all, their lives, their future, that we may keep these same Hunns from our shores.

But, after the war, what then? is the question we ask. Are we going to resume the same business relations with the German Empire as existed before the war? Millions of dollars' worth of merchandise was shipped into this country every year that was made by the same hands that to-day would only too gladly cut the heart out of your boy or my boy, if they only had the chance.

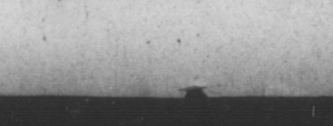

Those same hands will be producing merchandise after the war. Will all our sacrifices be in vain? Will we give the Hun another chance to murder and rape by filling his coffers with the profit he makes on his merchandise? Ah, Mr. Buyer, it is up to you.

Our Pledge The Front-Market Motor Supply Company makes the pledge never knowingly to purchase any raw materials or manufactured articles, regardless of quality, workmanship or price, made in Germany or by German sympathizers.
