These are serious times and I am going to write you a

We are giving our billions in money and millions in the flower of cur youth to save Democracy and Human Liberty. God forbid that in our hasty consideration of war measures we jeapordize our national sense of justice.

Uncle Sam faces the world with a stainless escutcheon, and where is the man who would put a spot on that shield?

In our war with Spain we took over Cuba and the Philippines. We did not exploit them, but restored them. We drove from these islands the scourges that had cursed them; we built them roads and public schools; we improved their harbors, gave security to property and to life, taught the natives how to farm, how to convert raw materials into finished products and how to govern themselves.

Then we gave the Cubans independence and made no claim for the millions we had expended. To-morrow we shall treat the Filipinos with the same abundant generosity.

After trouble in China the penalty of twenty millions per annum we handed back to China As an educational fund.

This country has not merely been just-it has geen gen-

Uncle Sam stands so straight that he leans backward.

Are we seeking aught in this great world war save that right shall prevail?

There is not one man in Congress who would have this

tillers, brewers, wine-makers and others connected with the traffic should receive compensation. This, then, is my contention—that failure to provide compensation, to the last farthing to every one financially hurt by the experiment of prohibition, will prove a lasting shame to our Government and put a blot on her escutcheon

There are sects that would abolish tobacco and others that would forbid the use of meat, or the private ownership of land, or the putting out of bonds.

Would Congress appoint a Commission to consider the rights of Nicaragua concerning the Canal Zone? Then let Congress appoint a Commission to determine if the hundreds of millions that will be lost by the experiment of national prohibition shall fall upon distillers, brewers, winemakers and the like or upon the people as a whole.

But for the demand of the people for wine, beer and whiskies, there would be no liquor traffic. Therefore the people and the people's Government are responsible for the vast sums that have been during over one hundred years invested in our great breweries, distilleries, wineries, vineyards and the like and which, if prohibition obtains, will possess practically no value at all.

Yours very truly,

T. M. Gilmore,
