LIFE'S PROBLEMS ARE DISCUSSED

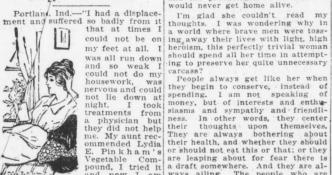

"Dear Mrs. Woodrow-Will you please tell me how to stop worrying? My friends say that I am a born worrier, and I am afraid that it is true. I try my best to be cheerful and happy, but it doesn't 60 much good. In spite of myself, I am blue and depressed and constantly fearing that something bad is going to happen to me or to those I love. I do not want to go on this way, and I would like you to tell me if there is anything I can do to improve my spirits, for I know that this disposition to worry is growing on me. My health is good and so are my finances. Thanking you very much for any advice you can give me. Sincerely, "E. V."

Instead, just quietly but firmly determine to transform your prison into a palace. Why not? All things are possible.

Why are you condemning yourself or imprisonment for life? Surely you are not superstitious enough to believe that there is some malign power in the universe which sentences you to misery. And why do you worry? Because you have formed the habit of doing so. And now it is the easiest thing in the world for you to follow the line of least resistance and keep on.

Saturday and yesterday,

Saturday and yesterday.

The Telegraph gave to the people of Harrisburg Saturday afternoon first news of the abdication of the Kaiser. Not only that but it had the news so early that thousands of people in nearby towns were given it in their regular editions. It was on the street first and had sold hundreds of copies before any other newspaper carrying the news had appeared. Every reader of the Telegraph in Harrisburg had not the news but the official confirmation in the form of a proclamation issued by Prince Max. It was hours before this proclamation was printed by any other local newspaper.

Yesterday in a special war extra

Yesterday in a special war extra the Telegraph published the first news of the tremendous turnover in Germany, with Berlin falling to the revolutionists, the Crown Prince's palace raided, the arrest of Bertha Krupp, the surrender to the Socialists of the great Essen munition works and much other news of a sensational na-ture. This was the first extra ever published by a Harrisburg newspaper on a Sunday and it newspaper on a Sunday and it contained news of such vital im-portance that Mayor Keister gave special permission to the boys to cry it.

These beats were made possible by the fact that the Telegraph is the only evening Associated Press newspaper in Central Pennsylvania. The Associated Press is first with the news. The Telegraph carries all its di-patches.

IMMEDIATE SHIPMENTS TO DRUGGISTS IN INFLUENZA DISTRICTS

Preference is being given to those sections stricken by infinenza. In order to reach these sections as quickly as can be, we are, during this emergency, making shipments by Parcel Post, direct, to the retail trade, of not more than three (3) dozen 30c size in any one shipment. We prefer that the jobber order these shipments for their trade, but to save time we will, if the need is urgent, ship direct on recelpt of a check or money order. Naturally, no new accounts can be opened during this rush.

HOW TO USE VAPORUB IN TREATING SPANISH INFLUENZA

On Monday, October 21, we addressed an advertisement to the wholesale and retail drug trade, advising that we were badly oversold, due to the influenza epidemic, stating that all deals and quantity shipments were postponed, and requesting that VapoRub be purchased in small lots only. This condition still prevalls.

At this writing we have back orders for eighteen thousand (18,000) gross and our orders each day are double our daily output. The epidemic, however, is decreasing in most sections, the demand is slakening and we are working night and day to catch up. In the meantime, we ask the trade to be patient with us.

ENORMOUS SHIPMENTS HAVE WIPED OUT EXCESS STOCKS

On October 1st we had on hand at the factory and in twenty warehouses over the country a tremendous stock of VapoRub, accumulated during the month of October over three million jars of VapoRub. We are speeding up our factory as much as possible and the problem now is to distribute the factory's output as quickly as possible. We have, therefore, for the time being, abandoned freight shipments and are shipping either by Parcel Post or express—trying to give each jobber at least a little stock.

IMMEDIATE SHIPMENTS TO DRUGGISTS IN INFLUENZA

AS A PREVENTATIVE

It is questionable if there is anything which will prevent Spanish Influenza, except avoiding those persons who are spreading the disease by coughing, sneezing and spitting, and by keeping up the bodily resistance by plenty of good food and exercise in the open air. The Public Health Service recommends that the nasal passages be coated with a weak solution of Menthol in liquid petroleum as a protective. For this purpose VapoRub is excellent, Just put a small portion up each nostril from time to time during the day, and snuff well back into the head.
