To Avoid and Relieve Influenza

BY DR. FRANKLIN DUANE.

Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing, or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes.

Thoroughly loosen the bowels with some such mild laxative as Dr. Pierce's Pleasant Pellets. Drink principally of hot lemonade and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced, take a dose of two Anuric Tablets every four hours, followed by drinking at least a glass or two of hot water. Anuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons.

To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength, insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an ironing tablet called "Irontic" or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations.
