WAR WORK NEEDS OF OUR ARMY GREATER IN PEACE THAN IN WAR

"The biggest work and the greatest opportunities of the United War Work agencies in France lie before and not behind them." This statement was made here today by Dr. Nolan R. Best, well-known editor of The Continent, who arrived in New York yesterday on his return from six months' service as a Y. M. C. A. worker with the American Expeditionary Forces. "Britain and France," Dr. Best continued, "have been practically stripped of able-bodied men in order to maintain their armies at full strength. On the other hand, the manpower of the United States has, in comparison, only been touched. This means that the British and French must demobilize first in order to free the Tommies and Poles for the great tasks of reconstruction. The American forces, during this period, will have garrison duty to do all over Europe. In other words, for almost a year the Yanks will be needed as an international police." "In addition to this, it must be remembered that eighteen months have been required to get our boys

The hearing will begin Tuesday.

"We are going into this matter very fully," said Senator Overman, referring to the brewers' phase, "but from an impersonal standpoint."

Mott Street Is Great Wall of Chinatown

New York.—One of the most unusual and interesting parts of New York in that quaint triangle cut off by Mott street which curves the Bowery in a half-moon, commonly known as Chinatown. John K. Winslow, in the World Outlook, says that Mott street is the Great Wall of Chinatown.

He further says that the first Chinese settled there in 1850, and to-day there are over 5,000 in the little triangle—and nearly three times as many scattered and lost throughout the rest of the great city. Not only do its balconied houses, its narrow, crooked streets and its scarlet bulletin boards make it distinct from the American city, but it has a constitution and government of its own.

McCabe Reiterates He's Not Mr. Wilson; to Grow Beard

New York, Nov. 14.—James J. McCabe reiterated to-day he is not President Wilson. This time he was believed. But when he walked up Fifth avenue, at the height of New York's celebration, his resemblance to the President was so marked that the crowds fairly mobbed him in their enthusiasm. McCabe, who really is a district superintendent of schools in Brooklyn, was considerably the worse for wear to-day. He declared he was going to grow a full beard.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is very easily prepared and really there is nothing better for coughs. Into a pint bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly and tastes pleasant—children like it. You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for croup, whooping cough, and bronchial asthma. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and receives the highest satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain. How To Treat. Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. An excess of stomach acid irritates, digestion is delayed and food sours, causing the disagreeable flatulence, gas, and very stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Sloan's Magnesia and take a teaspoonful in a quart of glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Sloan's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach; inexpensive to take and is the most efficient form of magnesia for stomach purposes. If it is used by those and of people who enjoy their meal with no more fear of indigestion G. A. Gargas.

Influenza Still Much in Evidence

The epidemic of influenza has by no means subsided in many sections of the state according to reports of outbreaks announced last night by the State Department of Health.

The death toll from influenza and pneumonia since October 1 is declared to have passed the forty thousand mark and a total of six hundred and twelve deaths from influenza and pneumonia are reported for the twenty-four hour period. Conditions still continue serious in the city of Erie where new cases are reported daily. There were more than three hundred cases reported from Cresson, Cambria county, and many new cases from Portage, Jeannette, New Florence and Saline in Westmoreland county all report new cases developing daily and several deaths. Morrisdale in Clearfield county and Coalport and Broad

Top in Huntingdon county report that the epidemic is still raging in their districts. Dr. B. Franklin Royer, acting commissioner of health, announces that there is still an urgent need for doctors in vicinities where the epidemic is still raging. The number of nurses now available seems to be adequate to care for the situation.
