## A Splendid Display of Linens

Perhaps the most important factor in making your meal a success, aside from the food, is table linen. Excellent assortments of cloths, napkins, etc., are to be found here in the most beautiful patterns.

Prices are almost as reasonable now as they were last year, in spite of the advance in cost of raw material. The chief sources of supply for flax, from which linen is made, are Russia and Belgium. On account of the European war, the crops for several years have not been available to a normal extent, which has caused a great increase in cost of the finished products, and a great shortage. Better buy NOW at these prices, which are exceptionally low.
