

HENRY BUDD HAD \$1 EXPENDITURE

Candidate For Supreme Court Says a Notary Refused to Accept Fifty Cents

Henry Budd, candidate for Supreme Court Justice at the recent election, to-day filed a campaign statement at the State Department in which he certified that he had expended approximately one dollar, mostly in postage in answering letters suggesting that he be a candidate and that if any one made any expenditures in his behalf it was done without consultation with him and he is now utterly unaware of any such payments. Mr. Budd further certified that he received no contributions unless a notary who had declined to execute a certificate acknowledging the nomination affidavit could be considered as contributing fifty cents, the customary amount in such transactions.

Governor Brumbaugh to-day made mention on the Governor of New Jersey for return to Pennsylvania of Ricardo Catalana, charged with murder in Philadelphia. The Public Service Commission to-day announced that the Citizens Electric Company, of Williamsport, has filed notice of an increase in rates in that city effective December 1; the York Railways notices of increases on certain classes and establishment of an intermediate fare limit; Mansfield Electric Company, increase in Ploga county; Pottstown Gas and Water Company, Pottstown; Rock Run Fuel Gas Company, Pottstown and vicinity; Prepton Telephone and Telephone Company, Freeport; Weatherly Water Company, Weatherly; increases in rates, Trenton, Bristol and Philadelphia Street Railway Companies, Northampton county, increase from five to six cents between Morrisville and Torresdale and intermediate stations; Slate Hill Electric Street Railway Company, Northampton county, increase from six to seven cents fare with provision that trucks must be carried on freight cars; Pittsburgh, Harmony, Butler and Butler railroads, increases on easels, ice cream, bread, bicycles, etc. Hearings were held to-day by Commissioner Milton J. Brecht against the service regulations of the Harrisburg Gas Company, in Elkwood and the matter may be adjusted, and also on complaints from Hummelstown and Palmyra about the gas rates in those places.

Quebec Toll Gates Disappearing Fast

Montreal—Tollgates and bridges are now regarded in the Province of Quebec as relics of the past, and they are disappearing fast. This year eight municipalities, acting in co-operation with the provincial government, abolished the tollgate system. They all took advantage of a law placed on the statute books of the province a few years ago, by which municipalities which desired can free their highways. In every case the road is bought from the tollgate company which built it, and the statutes also provide that in cases where the municipalities pay half the cost of expropriation the provincial government may make a grant equivalent to the other half. It was this law that eight municipalities took advantage of this year.

VIENNA CASTS OUT AUSTRIAN EMPEROR ON EVE OF LIBERTY

Republic to Be Proclaimed Tomorrow; Former Ruler Not to Be Allowed Within City, Even as Private Citizen

LONDON, Nov. 15.—Vienna newspapers announce that the German-Austrian republic will be proclaimed tomorrow and that former Emperor Charles' request to be permitted to reside in Vienna as a private citizen has been refused, according to an Amsterdam dispatch to the Exchange Telegraph Company.

Amsterdam, Nov. 15.—Officers of the German air service have taken the German crown prince and his oldest son to a place of safety, according to the Tageblatt of Berlin.

London, Nov. 15.—More than one hundred, men, mostly German officers have been killed in disorders in Brussels, and Soldiers' Councils have been formed in that city and at Antwerp, according to an Amsterdam dispatch to the Exchange Telegraph Company, quoting the Telegraaf.

Amsterdam, Nov. 15.—The new German government has issued an appeal to the peasant population asking for the formation of peasants' councils for the purpose of organizing food supply. The appeal says such voluntary self-administration is better than bureaucratic organization and will avert recourse to compulsory measures.

Holland has found it necessary to appeal to its people for the co-operation of the populace in a "grave crisis," fearing seizure of power by the minority. Holland has enforced the internment order on the former emperor of Germany, who is under the protection of the Dutch government until such time as disposition of his presence is determined upon. The Dutch proclamation declares its determination to maintain authority and order.

German Hiers Take Crown Prince A dispatch from Amsterdam seems to confirm the report that the former German crown prince is safe. Officers of the German air service, the dispatch states, have taken the crown prince and his eldest son to a place of safety.

London reports tell of continued disorder in Brussels, stating that Soldiers' Councils have been formed in that city and at Antwerp. More than 100 men, chiefly German officers, have been killed in Belgium's leading city. It is officially announced in Paris that the French army will make an official entry of Strasbourg on Monday, November 25, and that high officials will go to the city eight days later for the ceremonies to be held incident to the re-taking of Alsace and Lorraine by France.

An American mission is to leave for Spa, German headquarters, on Saturday, according to a London dispatch, received from France. A delegation from the French general staff has been at Spa to arrange for the repatriation of 420,000 French war prisoners and it is not unlikely the American mission is to go to Spa on a similar errand. The prisoners to be repatriated include those who have been interned in neutral countries.

Germany Appeals to Peasants In its effort to solve the food problem in defeated Germany, the new German government has appealed to the peasant population to form councils for the purpose of organizing food supply, suggesting voluntary self-administration is better than bureaucratic organization and assuring the peasants co-operation will avert recourse to compulsory measure.

Chinese Woman Is Bellevue Surgeon

New York—A Chinese woman surgeon, Dr. Ping Yuan Tsao, has just been assigned to the ambulance staff of Bellevue Hospital. Dr. Tsao holds degrees from three American universities and when she completes her term as interne in Bellevue she expects to return to China to teach and practice medicine.

Dr. Tsao is a daughter of Dr. and Mrs. Ling Han Tsao, of Nonchang, China. Her father is a jurist and former Chinese educational commissioner to Japan. Her grandfather was governor of Kiangsi province. After she was graduated from a boarding school at Kiuksiang, China, Dr. Tsao was sent to this country by the educational mission of the Chinese government. She arrived in 1909 and was graduated from Northwestern University, Evanston, Ill., in 1911. In 1915 she completed a course in science at Michigan University, Ann Arbor. She was graduated from Rush Medical School, Chicago University, last June.

There are great opportunities for women in the practice of medicine in China," Dr. Tsao told a reporter. "Chinese women greatly prefer to be attended by women physicians, and there are as yet very few of them, probably not more than a hundred altogether. Of these about twenty have been educated abroad."

MUFFLED KAISER'S STATUS Paris—At the time of revolutionary disorders at Cologne a crowd tried to demolish, with machine gun fire, a statue of William II, but finally contented itself by muffling the statue and placing upon it a card inscribed "A good journey."
