

MINSTRELS WIN MUCH APPLAUSE

Neil O'Brien's Entertainers Have Fine Program of Songs and Comedy

Bring along a good minstrel show, get the people to the theater to enjoy the entertainment, and you'll see hundreds and hundreds in laughter...

Vaughn Comfort was interlocutor, and assisting him were some fine comedians and vocalists. The witty repartee and the jokes in the first part of the offering were equal to the best offered in Harrisburg.

Four short comedy offerings were given as the second part of the entertainment. Billy Van Allen, A. B. Rains, "Sugarfoot" Gaffney, Louis Tracy, William Doran, Fred Miller and others gave a dancing story in poetry which made a big hit.

Among the favorites on the bill are Herbert Denton and Florence Hackett, who, in "Poughkeepsie," present a highly entertaining and frolicsome, if somewhat trite, travesty on domestic relations.

THE MAJESTIC From the variety of fun offered at the Majestic the first half of the week, the bill should be an attractive one to theatergoers.

ARMY OFFICERS AS SCOUTMASTERS

Great Opportunity For Returning Soldiers to Act as Leaders

"Don't take off the khaki, just change the buttons," is a slogan that will appeal to returned and retired officers of the United States Army.

Major General C. M. Clement, of Sunbury, is at the present time the first army officer to accept this new slogan for himself.

General Clement recently returned from active service on the western battle front, where he was sent to study conditions of trench warfare.

During the trouble on the southern border two years ago, General Clement, as Major General, was in command of the Pennsylvania Division, known as the Seventh Division, while in service at the border.

There are at present 42,000 Boy Scouts with their leaders. Applications are coming in to National Headquarters at the rate of about one thousand a day.

wonderful smoke consumer, which does not prove a great success, and they are about to lose all their money when they hit upon the plan of taking the young women to the Panama Exposition and have her compete for a \$10,000 prize, which is to be awarded to the young woman who is the most beautiful in the world.

At the best vaudeville bills of the season opened a three-day engagement at the Majestic yesterday evening, when Fred Ardath and his comedy school, the title of Mr. Ardath's new act, "The Singing School," is presented by a company of eight people, who furnish splendidly good music.

Physician Says Anaemia—Lack of Iron in the Blood—is the Greatest Curse to the Health, Strength, Vitality, Beauty of the Modern American Woman

Administration of Simple Nuxated Iron will Often Increase the Strength and Endurance of Weak, Nervous Women in Two Weeks' Time and Make Them Look Younger

"If people would only realize that iron is just as indispensable to the blood as is air to the lungs and food to the body, they would, in my opinion, be far less likely to suffer from anaemic, weakened conditions. It was a problem with physicians at times to administer iron in any form, but now it can be taken up by the blood and increased the strength and vigor of the body without upsetting the stomach, blackening the teeth or producing any of the other disorders almost as serious as the anaemia itself. But the introduction of Nuxated Iron has done away with all the objectionable features of the iron in the blood and gives to every careful, thinking physician a tried and valuable prescription which he can recommend nearly every day with benefit to his weakened and nervous patients. In my opinion, Nuxated Iron is the most valuable tonic, strength and blood-builder any physician can prescribe."

Dr. MacAlpine says: "In my opinion practically nine out of every ten women who suffer from 'Nerves' can improve their health, strength, vitality and general appearance by getting more iron in their blood. You can tell the women whose blood is rich in strength-giving iron, they are the beautiful, healthy, rosy-cheeked ones, radiant with life, vim and energy, envied and sought after everywhere. Yet despite all that has been said and written by physicians about the alarming iron deficiency in the blood of the average American woman of to-day, there are still thousands who need something to increase their red blood corpuscles and build up their strength and endurance and are either careless of their condition or do not know what to take. In my opinion there is nothing better than organic iron—Nuxated Iron—to help them. Iron will often transform the flabby flesh, toneless tissues, and pallid cheeks of nervous, run-down women into a glow of health and make them look years younger within a surprisingly short time."
