Mrs. Gilbert Re-elected. The report of the nominating committee was read and unanimously adopted.

Older Order Passing. Looking on the bright side of the terrible conflict is said: "With the realization of many of the ideals of freedom and democracy that were deep seated in the hearts of the founders of our Republic and it seems providential that America have been called to go forth to share the best of these ideals and to help carry them to the ends of the world."

NATION BONE DRY JULY 1 BY RIDER PRESIDENT SIGNS

Liquor Traffic Is Swept From the Country Until the Army Disbands

Washington, Nov. 22.—President Wilson yesterday signed the emergency agricultural appropriation bill with its legislative rider providing for national prohibition for next July 1 until the American Army is demobilized.

Unless the Presidential proclamation under the food control act is rescinded, the prohibition amendment will affect only the manufacture of wine, for the brewing of all beer must cease December 1 under the President's proclamation. The manufacture of whiskey was stopped soon after the nation entered the war. Under the amendment the manufacture of wine will cease next May 1, and should brewing be allowed to continue after December 1, it also would stop May 1 under the new law.

After next June 30 no intoxicating liquor of any kind may be sold in this country for beverage purposes except for export, until such time as the President by proclamation declares demobilization completed. The amendment also prohibits the importation of any intoxicating beverages into this country from the time the bill is approved by the Congress to the demobilization of the Army is completed.
