Pacific Coast Council Proposes Halt in Plans to Vent Indignation

Oakland, Cal., Dec. 2.—Resolutions proposing postponement of all strikes called in behalf of Thomas J. Mooney, whose death sentence for murder growing out of the preparedness day bomb explosion in San Francisco, was commuted by Governor Stephens to life imprisonment, were adopted last night by the Alameda County Central Labor Council. The resolutions proposed the holding in Chicago on January 14 next of a Congress of delegates representative of the entire field of American labor, "to provide ways and means of expressing the just indignation of American labor and to take such steps as will force the rectification of the monstrous injustice done."

Quick Relief for All Rheumatics

If So Crippled You Can't Use Arms or Legs, Rheumatics Will Help You

If you want relief in two days, take a small dose of Rheuma once a day. If you want to dissolve every particle of uric acid poison in your body and drive it out through the natural channels so that you will be free from rheumatism, get a bottle of Rheuma from Kennedy's Drug Store or any druggist at once. It must give the joyful relief expected or money refunded. Rheumatism is a powerful disease, strongly entrenched in joints and muscles. In order to conquer it, a powerful enemy must be sent against it. Rheuma is the enemy of Rheumatism—an enemy that conquers it in nearly every instance. Judge John Barnhart, of Ft. Leavenworth, Ohio, knows it. He was walking with crutches; to-day he is well. It should do as much for you; it seldom fails.

WORKERS ARE IN GREATER DEMAND

Commissioner McNichols Receives Reports Which Indicate Interesting Situation

The status of the labor market throughout Pennsylvania at the present time is reflected in 118 letters received by Acting Commissioner Walter McNichols, of the Department of Labor and Industry, from plants employing thousands of workers in all sections of Pennsylvania. These letters, mainly from metal plants, textile mills, clothing manufacturers and mining companies, indicate that 55 of the industrial establishments do not anticipate laying off any workers at present; 50 of the plants need workers at the present time; 10 of the plants will find it necessary to lay off workers during the next few weeks; and three plants are uncertain as to the future. The need for men, as indicated in the communications received, exceed by far the number of men who will be laid off, and virtually all of the employers express optimism regarding the future of industry in Pennsylvania. The 118 letters, presenting a cursory survey of labor conditions in the state, at the present time, were in response to letters sent out Friday by Acting Commissioner McNichols, urging industrial plants where men may be laid off, due to cessation of war contracts, to start improvement plans to give employment to a maximum number of workers and thus aid in stabilizing industrial conditions in Pennsylvania through the period of industrial readjustment.

A Sure Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

The percentage of losses to claims is given as 69.3 per cent. for the first half of 1918. Reference is made at length to reinsurance, inspection and audits.
