RAIL PROBLEM IS

WITH NEW BODY

Democratic Leaders Virtually
Give Up Hope of Holding
Necessary Hearings

Washington, Dec. 5. — The next Congress, a Republican one, will determine the future of the railroads. This was assured when Democratic Senate and House leaders, aware of the legislative task ahead of them virtually gave up hope of being able to hold the necessary hearings in committee to thresh the matter out thoroughly in both branches of Congress and to pass a bill to cover the railroad situation.

It was considered by these leaders that as many big appropriation and reconstruction measures as well as the revenue bill, on which there is a bitter fight, will have to be passed upon between now and March 4, mature deliberation could not be given to the railroad problem which it deserves.

There is a possibility that the Sentate interstate commerce committee Commerce of the Reall reading and the pass and the president has reprobable this year, according to a stitute fight, will have to be passed upon between now and March 4, mature deliberation could not be given to the railroad problem which it deserves.

There is a possibility that the Sentate interstate commerce, committee to the real commerce commerce washington, D. C., Dec, 5.—Recrulting for twenty-one many will be real reading any suppositions of readi

There is a possibility that the Senate interstate commerce committee will begin probing into the railroad situation. If it does the railroad question will go no further this session. So far as the House is concerned it is the intention there to let he railroad matter rest until the next Congress is called.

In their decision to let the railroad of men to be accepted. TO RECRUIT FOR MARINES

Undoing of Man Wanted

hilip Goslin, colored, of Sykesville,

the bar of justice to answer the

to have committed two years ago, was revealed this morning by John

Bethlehem Steel Company plant at Steelton, who hired the negro to

watch the sweetheart of Wille Pal-mer, who is wanted for the murder of Joseph Gordan, in Steelton, sev-

green vest.

Mr. and Mrs. John O. Brown en-tering the station on their way back to Sykesville, where they live, saw

the negro was arrested and Sykes-ville authorities notified. When Sheriff Edward Miller, of Westmin-ster, Md., arrived at the jatl he iden-tified the man at once and took him back to the Westminster jail.

They Are Always on Top

In Every Walk of Life

It is a fact that red blooded men and women are at the top in every walk of life. Men and women with the driving force of red blood, rich in Iron and Phosphates do things, they get results.

Ited blooded women are the heads of the happiest and most contented homes, they have the will and the desire to be real companions and helpmates.

desire to be real companions and helpmates.

Leadership and happiness is only for the men and women who are willing to keep their blood and nerves strengthened and nourished with Iron and Phosphates.

A prominent doctor says, "It is a crime that so many men and women lack the rich, red blood and strong steady nerve to achieve their ambitions. It is all the more so because thin, watery blood is unnecessary, as rich, red blood and strong nerves are within the grasp of everyone. Phosphated Iron makes pure blood oy making new blood. It gives strength, brings color to the cheeks, increases the weight and appetite, lives away the blues and those dieepless nights, steadles and renews your nervous energy, makes you feel like a live one once again.

There must be something to it.
Veryone who tries it is loud in
vales of Phosphated Iron, and you
are got to show people these days.
To insure physicians and their
valents receiving the genuine Photovalents received the property of the provalents received the provalents rec

GROWING DANGER

Crowds at Christmas Time Are Liable to Spread Influenza Abroad in Land

Shop early, avoid crowds and Ebbert C. McSparrin, New Ken thug avert the danger of contracting influenza, is the warning sounded to the Christmas shoppers of the state by Dr. B. Franklin Royer, Acting Commissioner of Health.

With the approach of the holiday shopping season, said Dr. Royer, too much stress cannot be laid on the necessity for the public to avoid crowding in the stores, many of which are poorly ventilated at best. The influenza danger has not passed and reports from various sections of the state show that the disease is continually flaring up in many communities and will probably be with us throughout the entire winter. I doubt if there is a community, large or small, in the Commonwealth that can truthfully boas that it is absolutely free from this disease. thus avert the danger of contract-Joseph T. monwealth that can truthfully boast that it is absolutely free from this disease.

Influenza is spread largely by droplets caused by sneezing, coughing and spitting and it is a disease spread in crowds and in poorly ventilated places. Therefore, the unusual and unnecessary crowding so common in the stores during the Christmas shopping season is sure to result in an increased number of influenza cases unless the people will protect themselves. Let-the Christmas buying begin at once. Those persons who are habitually ejeventh hour shoppers will do well to remember this warning. The storekeepers should co-operate by beginning at once to display their special holiday goods and to hire a sufficient sales force to handle the increased business without taxing the capacity of their clerks and necessitating their aisles being crowded with anxious people.

A recurrence of the recent terrible epidemic would be a sad end for the approaching holiday season, and this can be prevented if the people will avoid conditions which tend to spread the influenza. m.
