

U. S. BRITISH WORLD CONTROL NOW PROPOSED

Williams Tells Senate Two Nations Are Equipped by Sea Power and Resources

Washington, Dec. 10.—A League of nations consisting of the United States and the British Empire, which other nations might join or fail to join as they pleased, but which could dominate the world and enforce peace through sea power and control of raw materials, was suggested in the Senate today as a very practical solution of the problem of maintaining the world's peace by John Sharp Williams, a member of the Foreign Relations Committee and probably President Wilson's closest friend in the upper house.

SCHWAB PLANS FOR PEACE WORK

[Continued from First Page.]

\$500,000,000 by the government and the probable cost of the cancellation of \$200,000,000 more by the Emergency Fleet Corporation, and with the release of enormous quantities of the raw product, it became imperative that immediate steps be taken for the readjustment of the enormous facilities of the company. The reasons for Schwab's resignation were made known on Monday when the company announced that it had made government contracts for readjustment.

Huns Not Wanted Here; Immigration to Be Curbed

With Germany crushed and beaten into insensibility, not because of the might of the American fleet, but because of the steel plant to again place some parts of their plant on peace work. Several weeks ago the first rails were rolled by the company for a period of four years. But much work remains to be done at Steelton to bring the plant back to a peace basis as there does not exist other plants under the control of Schwab, and it is to be expected that this will be the first time for years that any quantity of iron and steel has been available for any but war purposes.

GERMAN PLOTS LAID BARE IN SENATE PROBE

By Associated Press

Washington, Dec. 10.—More letters from the secret files of Count Von Bernstorff were read to the Senate committee investigating German and bribery propaganda to-day by A. Bruce Bielski, chief of the Bureau of Investigation of the Department of Justice.

Wanted Own to Get From Under

Bielski read to the committee a letter from the secret files of Count Von Bernstorff which was written to the German consul in New York, and in which the German agent, who was named as Hans Lebeau, was urged to get from under the German consul in New York.

Bureau in Principal Cities

Branches of the bureau were established in principal cities. Names of German and Austrian workers in munitions plants were obtained and a systematic campaign among them was conducted. Other work was done by the bureau for those who could not obtain new jobs themselves.

Allentown Doctor Mentioned

The name of Theodore Otto, a doctor from Allentown, Pa., was mentioned by Bielski as one of the men in this country who furnished the German embassy with information regarding munition factories.

Money Thrown Away

"The negroes didn't take to these stories, however," Bielski said, "as they were too loyal. Money spent in the South for propaganda was thrown away."

Hun Embassy Fears Names

An attempt to purchase an American newspaper which would be in sympathy with Germany was made without success, Bielski said, shortly before the United States entered the war.

Congressman in Probe Net

"Just what the project referred to was intended for the congressman, but the witness said it might have been in connection with the election of Congressman Buchanan.

Christmas Money

As money for other purposes can be had from us at rates prescribed by the laws of the State of Pennsylvania. A great many people have the wrong conception of borrowing money. Most all business men at times are compelled to borrow money to tide them over a short period, so why is it any different for an individual to borrow under the same conditions.
