

Red Cross Memberships in Pack of Santa Claus Suggested as Boosters

Many expedients have been put into use to boost the Red Cross membership as much as possible during the campaign which will be held December 16 to 22. Among other means of swelling the lists Red Cross memberships as Christmas gifts have been suggested. But it has remained for the Colonial Country Club to inaugurate a very unique way of benefiting the organization and securing new members.

Next Tuesday night, the monthly card night of the Colonial Club, the usual prizes for women and men will consist of memberships to the American Red Cross Society. Six prizes will be given three for women and three for men, which will in reality be six Red Cross buttons entitling the winners to membership in the society. The committee on entertainment for the card night are M. W. Allen, chairman; G. L. Culmer and L. Frank Bass.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces, of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better than you can get liquid arvon at any drugstore. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

THE RED CROSS

By James Henry Darlington, Bishop Episcopal Diocese of Harrisburg

No words of mine are needed to impress upon the people of Pennsylvania and Delaware the necessity for the continuation of their hitherto generous support of the Red Cross. With the influenza still prevailing in France and England, and in many camps in this country—with the danger from pneumonia and many other illnesses from exposure to winter's cold and damp, our soldiers, sailors and aviators will need constant and skilled care if they are to return to us in good health by spring and summer.

With two brothers and three sons in the service abroad I know what this means. I trust that in the Christmas rollcall Pennsylvania will make its membership unanimous.

STEEL MEN FAVOR REDUCING PRICES OPENING OF YEAR

Chairman Gary Opposes Reduction of Scale of Wages Yet

New York, Dec. 10.—A moderate reduction in the scale of maximum prices for steel, beginning on January 1, is favored by the general committee on steel and steel products of the American Iron and Steel Institute, which meets with the War Industries Board on Wednesday.

This was announced by Elbert H. Gary, chairman of the committee, at a meeting here of steel manufacturers yesterday, with the recommendation that the question be referred to the committee with power, which was done.

No Reduction of Wage Scales Mr. Gary opposed any effort to reduce wage scales at present declaring that while labor is receiving higher compensation than ever before, the rates are no higher than are "proper and just" in view of the cost of living.

Perhaps the most satisfactory way of reducing "the present basis of general prices that are abnormal," Mr. Gary said, would be the making of simultaneous reductions "in every direction," but this, he declared, would be impractical.

Fair Treatment Reciprocal "If the workmen are treated fairly and liberally," he said, "they will stand and contend for fair treatment of the employer."

"You have a chance to do something valuable toward sustaining the business equilibrium of the country. While some might suffer losses at present, perhaps it would prevent greater losses in the future. We would be lenders in a movement calculated methodically to readjust conditions in an orderly way. We might have some influence on steady business generally, and, remember, the workmen are more interested in the question than any other class for labor constitutes the greater part of the cost of production, from the raw material down to the finished product and its use by the consumer."

"Our employees must continue to be treated liberally with respect to their compensation and general welfare. We will continue to show them that it is our intention to consider its merits, and to treat them as associates and valuable assistants in our work."

Dick O. Allday, Charged With Disloyalty, May Not Be Brought to Trial

It is probable the case of Dick O. Allday, of Chambersburg, charged with having made seditious remarks, will be dropped by the Department of Justice. Federal officials have stated that, since the war is over, the government is dropping the cases of this nature. Allday is a real estate operator living in Chambersburg. He was a recent candidate for Congress in the Seventeenth district and his arrest caused considerable excitement in Chambersburg.

In Federal court yesterday Franz Schwartz, Lebanon, was given a sentence of thirty months in the Eastern penitentiary at Baltimore on the charge of making threats against the President. Schwartz, it was testified, was born in Germany. Despite the fact that he has lived in this country for twenty-six years he has never been naturalized.

The civil case of Victor E. LeBarre, Perth Amboy, N. J., against the Philadelphia and Reading Railway Company, occupying the present attention of the court. The case, an action in trespass opened yesterday afternoon. The plaintiff alleges that although a passing train did not hit his automobile, it scraped the sides, thus demolishing the car and killing his wife. The case is bristling with technicalities and it is possible that it will last for some time.

Millersburg Attorney in Miami After Automobile Trip of 1,609 Miles

H. L. Lark, an attorney residing at Millersburg, arrived in Miami, Fla., November 30, after an auto trip of 1,609 miles. He will remain here until next May. In an interesting letter written to Deputy Prothonotary Henry P. Hoffer he said that about 900 miles of the trip were over the worst roads he ever traveled, mostly in South Carolina and Georgia. One day, in driving twelve hours, he only covered 104 miles, from Doric, Ga., to Jacksonville, Fla. He said that the reason for the poor roads in the two Southern states is the shortage of convict labor in recent months due to the prohibition legislation now in effect, and the big decrease in crime.

American Forces Are in Mayen, on Way to Coblenz

By Associated Press London, Dec. 10.—American forces enter Mayen, near Coblenz, on Friday. This was reported by the Wolf Bureau of Berlin as an entry into Mayence. The Wolf Bureau reports that newspaper representatives at Graves called at American headquarters there on December 4 at the request of the American commander. They were told that the Americans wished to avoid interference with the liberty of the press and public generally and assured that there was a desire that matters should remain normal in the city.

Ljubljana, Austria, Dec. 10.—The first direct train from Geneva to Ljubljana, capital of Slavonia, will leave Thursday. The train will be under the control and auspices of Americans.

FOUND DEAD AFTER FIRE Mount Holly, N. J., Dec. 10.—Persons who broke into John Roach's home at Evesboro, found him dead seated on his bed, with the soles of his shoes charred by a fire that had evidently started from an overturned lamp and burned around the floor just where some oil had run out.

BUSY BANDITS HOLD UP FIVE Wilkes-Barre, Pa., Dec. 10.—Bandits, who made their escape, were responsible for five hold-ups in Warrenton and Sugar Notch early yesterday morning. Felix Kohawak, a resident of Sugar Notch, attempted to evade the robbers and was shot through the right leg, shattering the bone above the knee.

Teach Citizenship to Troops Abroad New York, Dec. 10.—The Y. M. C. A. has established a bureau with the American forces in France to give instruction in citizenship and municipal government to soldiers in

order to return to America men imbued with high civic standards and better equipped for participation in government. Many of the instructors whose services have been enlisted by the bureau are among the experts in municipal government and social

problems who were banded together by the late Mayor Mitchell under his administration in this city. The work of the bureau will be carried out by classes, moving pictures, lectures, literature, and practical examples in the social and sanitary work carried out under American civil and military leadership in France.

Practical Gifts For the Home. Our furniture will solve the what to give problem for many people. The furniture is good and in good taste. Variety ample. Prices moderate.
