

THE OTHER MAN PLAYS PART IN DIVORCE TRIALS

Husbands Seeking to Break Marital Chains Allege Indiscretions

Both husband and wife alleged marital disloyalty in a divorce action heard by Judge S. J. M. McCarrell in Courtroom No. 2, M. Grover Green appearing against Mrs. Olive M. Green. Both parties were represented by counsel.

Green did not properly provide for his wife and that on one occasion she and her children were taken in by them when they were without food. Yesterday afternoon Harry Bankes, who is asking for a divorce from Mrs. Mary Bankes, testified that his wife had not been true to him. He told the court she left him three times and returned again. On one occasion, when one of their two small sons was seriously ill, she refused to listen to the child's pleading and return, and when she did come back, Mr. Bankes said, the boy had died.

Taft Calls on Five Nations to Police the World

Atlantic City, Dec. 10. — Former President William Howard Taft designates England, France, Italy, the United States and Japan as the nations to maintain the international police force of the future. He presented this list in his League of Nations plan before the reconstruction convention of the Investment Bankers' Association of America at the Traymore, yesterday. "You cannot overcome lawless violence except by lawful violence. A league of nations among other things must keep the peace of the world," declared Mr. Taft. "How are you to enforce the terms of the peace treaty unless you have a league of nations and thus elicit the purposes of the war," he declared.

COMEDIANS WIN MUCH APPLAUSE

Majestic Audiences Enjoy Bill of Unusual Offerings and Show Appreciation

Howard and Sadler, the popular comedians received an enthusiastic reception at the Majestic last night. After the singing of their clever "Wedding Bells, Will You Ever Ring For Me?" they were given an ovation, the applause lasting fully two minutes. This popular pair offers some very good songs and humor. The excitement at the second show last night, when they were given such lengthy applause, was unusual.

Homey Mason and Marguerite Keeler, in their travesty on the eternal triangle, offer an intensely interesting one-act play. For one who is seeking the unusual in plays here is the opportunity. Yet it is perfectly natural. The eternal triangle this time centers about husband and wife and "the other man." The members of the company display a judicious treatment of their parts which is seldom exhibited in pieces on the vaudeville stage.

The most novel offering seen in Harrisburg in years is by the Spanish Goldins in their heavy and light juggling and acrobatic stunts. The unusual runs rampant through the performance and surprises await the audience from first to last. How one is able to juggle a rug large enough for the largest-sized room would halt the imagination—unless you've seen the Spanish Goldins. Too much praise cannot be given Gillean and Mulcahy as artists. The one is an excellent pianist, while the other has a voice whose qualities recommend it to higher professional endeavors. The imitation of John McCormack's singing of "Maeushla" did not escape the approval and appreciation even of a vaudeville audience. McTear and Clegg do some cycle stunts that are clever, funny, and skillful. This act serves as a fitting end to the strong bill at the Majestic this part of the week.

Plan to Extend the Rural Parcel Post

Washington.—Plans for an assault on the high cost of living by extension of the rural parcel post through the use of army motor trucks, were explained by Assistant Postmaster-General Blakeslee to the House Post Office Committee, which is framing the 1920 Postal Appropriation Bill.

In asking for \$8,000,000 for the rural service for the year beginning July 1, next, he said trucks for the proposed service would be turned over by the War Department without charge. Truck trains of one tractor and six or more trailers, he added, would make postal rates compete with freight rates.

Lumber's Place In World Readjustment. THE great work of reconstruction that must be undertaken in France and Belgium to build up areas destroyed during the war must very largely rely upon our forest products.

Long deferred operations in Argentine and other South American Countries due to the war must soon be resumed. Other outlets for our products will be provided in South Africa, Australia, China and Japan that will ultimately consume enormous quantities of lumber.

Already negotiations have begun that contemplate purchases of upward of one hundred million feet of lumber for shipment to South American ports.

At home farming communities everywhere have eagerly awaited the time when building restrictions would be relaxed.

In large commercial centers there are indications of building operations upon a large scale. The need for homes and apartments is apparent.
