CORN CONTEST PRIZE WINNERS

York County Boys Make Good Showing in Raising Grain During Season

At Wolf, Dec. 17.—Noah Shearer, 17 years old, of near this place, was awarded the first prize in the corn-growing contest by the executive committee of the York County Corn Growers' Association, in session Saturday morning in the offices of County Superintendent of Schools C. W. Stine, in the courthouse at York. Young Shearer raised 114 bushels of shelled corn to the acre, which amounts to 223 bushels of ear corn.

The second award went to Charles Schaefer, York, R. D. 2, who raised 103 bushels. The remaining prizes were awarded to: Russel May, Dover, R. D. 74 1/2 bushels, and Henry Bubb, who cultivated 53 bushels of corn to the acre. Many contestants stated that they were forced to drop out of the contest early in the season because the weather conditions of their sections of the county were unpropitious.

The money which accompanied the awards will be presented to the winners in the near future. A number of contestants were eliminated because of the fact that they did not report to the committee as required by the rules of the contest. The contributors who have regularly supported the association in promoting the contests are the First National and the York National banks, of York, and the Hallam State and the New Freedom National Bank.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt relief of coughs, croup, and saves about \$2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and very pleasant—children like it.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial inflammation, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and it absorbs the mucus over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for 2 1/2 ounces of Pinex* with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.
