

40,000 PERSHING SOLDIERS ENTER CITY OF COBLENZ

Royal Castle, Summer Palace of Wilhelm, Guarded by Yankee Troops

By Associated Press
Coblentz, Dec. 18.—Approximately forty thousand American troops have arrived at Coblentz since the advance guard reached here a week ago. A large number of these troops have passed through the city, while considerable forces will remain here temporarily.

The largest hotel in Coblentz, overlooking the Rhine and the two bridges where most of the troops cross the river, has been taken over as quarters for Third army officers. The headquarters of the Third army are established in a government building adjoining the hotel.

During Sunday various detachments of infantry and artillery passed through Coblentz on their way to join the divisions east of the Rhine. Churchgoers viewed the marching troops with much interest. Late in the afternoon the Third division,

SPANISH INFLUENZA MORE DEADLY THAN WAR

Said That Epidemic Cost More Lives Than American Loss in Battle. Danger Not Over. Great Care Necessary to Prevent Further Outbreak.

The appalling ravages of Spanish influenza in this country are perhaps best realized by the statement recently made that more deaths have resulted in little more than a month from this disease than through our whole eighteen months participation in the battles of the European war.

Our greatest danger now, declare authorities, is the great American tendency to forget easily and to believe the peril is over. Competent authorities claim the coming of cold weather is very apt to bring a return of this disease and there should be no let-up throughout the winter months of the following easily observed precautions, remembering that influenza is far easier to prevent than cure.

Influenza is a crowd disease. Avoid crowds as much as possible. Influenza germs spread when ignorant or careless persons sneeze or cough without using a handkerchief. Cover up each cough or sneeze. Do not spit on the floor, sidewalk, in street cars or public places. Use the same common drinking cups and roller towels in public places. Wash the hands with antiseptics and soap to destroy the germs that do find lodgment in your nose and throat.

Remember, however, that a precaution against influenza could be employed in this manner than any other. The nearest drug store a complete Hyomel Outfit consisting of a bottle of the Pure Oil of Eucalyptus and a little vest-pocket handkerchief. Rubbing the oil into which a few drops of the oil are poured, and deep breaths of its pure, healing germ killing air into the passages of your nose and throat.

By destroying germs before they actually begin work in your blood, you may make yourself practically immune to infection.

All these suggestions about Spanish influenza are really true in the prevention of colds, catarrh of nose and throat, bronchitis and even pneumonia. Don't become careless. Do your part. Keep the germs away. You may save yourself a serious illness and the loss of several weeks work. On sale by H. C. Kennedy.

I Must Praise Tonall

For What It Has Done For Me," Says Farmer Perry

"I live at Spring Grove R. D., Lancaster county, Pa., and am a farmer," says Joseph Perry. "I have suffered so much with pain in my back that I could not sleep, was nervous and run down. I used a bottle and a half now of Tonall and in that short time I improved very much, indeed.

"I must praise Tonall for what it did for me. I am willing to help others and recommend Tonall for certain, run-down conditions. It certainly is good."

Tonall is sold at Gorgas' Drug Store, Harrisburg, and all leading druggists in Eastern Pennsylvania.

had been along the Rhine south of Coblentz, marched through the city and crossed the Moselle north of Coblentz, where it has taken up a position along the Rhine in support of the troops within the bridgehead.

All the larger hotels here have been taken over by the Americans for billeting purposes, as well as many of the public buildings, which are being used as offices.

The royal castle in Coblentz, known as one of the former German Emperor's summer palaces, now is under guard by American troops. The palace stands on the banks of the Rhine, a stone's throw from the business center of Coblentz.

The palace is surrounded by "paradise gardens" and contains many articles of historic interest, in addition to silverware and other belongings of William I, who once occupied the building.

Since the arrival of the Americans there have been several attempts to remove some of the valuables in the palace. Therefore, it was decided that the guard should be placed around the house as a precaution against the furniture and other things inside being disturbed.

The royal barracks within the palace gardens is occupied by American troops, but thus far the Americans have not entered the palace itself.

By degree of the American military authorities the clocks at Coblentz, Treves and elsewhere in the occupied area were set back an hour on Sunday. The change from the German time was made so that the clocks within the bridgehead and the district west of the river Rhine would correspond with the French time or the time used by the American Expeditionary Force.

In accordance with the terms of the armistice the Germans on Sunday turned over to the Americans 1,250 motor trucks. About 500 of these trucks have been assembled at Coblentz and the others in two villages nearby. As rapidly as possible the former German army trucks are being manned by Americans and used to bring up supplies.

German built trucks, driven by Americans, rumbled through the streets of Coblentz on Sunday but did not attract much attention, the civilians having become accustomed to the sound made by iron tires rolling along the cobble streets.

Would Give Soldiers Jobs in Mail Service

Washington, Dec. 18.—Many congressmen are beginning to wonder if it would not be a good thing to give returning soldiers employment in the Post Office Department.

The inefficient handling of the mails has been occasioning endless complaints for months, but it was explained that it was a war condition and any protest was unpatriotic. Complaints about the mail service are nation-wide, and are growing in volume.

It is said that much of the trouble is due to an unreasonable economy which cuts down the number of clerks to the point where good service is out of the question.
