size of the receipts have been running every day this week at twice the rate of the receipts in the same week of 1917, while special requests have been coming in so fast that they cannot be handled. Half a dozen have come for one single number.

Thus far there have been issued 51,840 pneumatic tired licenses against 32,401 at this time last year, and 7,986 solid tired licenses against 5,442. Because of the rush the attaches of the division have been increased to 150 persons who are working in three shifts of twentyfour hours each:

Come Out Tonight To

The "Silk Shirt" Festival

The most talked of store in central Pennsylvania to-day is Doutrich's because it's the ever busy store and if you have been shopping around during the past few days you have seen the vast crowds who are in this "Live Store" from "opening" until "closing," and you know we are open every evening until Christmas.

That's another thing that is very much appreciated by the busy folks who find that it's quite an accommodation for a store and its employes to co-operate with the buying public by trying to make conditions "suit the people"—but that's what we're in business for—to serve the people.
