Lodge Speech Leads Views, London Hears

London, Dec. 26.—A Morning Post dispatch from its correspondent in Paris declares there are indications that President Wilson is modifying his views because of the criticism of his policies expressed in the United States Senate and led by Senator Lodge. The dispatch also declares there is reason for believing that the President is very anxious to return to America the first of February with assurances by the Allies of a general agreement on the league of nations project. For these two reasons, it is said, the President will abandon his stand that there should be no division between the treaty of peace and the treaty establishing the league of nations.

MAJOR SUGGESTS LIVING TREE FOR CHRISTMAS

Mayor Klester has made the suggestion that a permanent municipal Christmas tree be instituted in Harrisburg, to take the place of the evergreens which must be cut every year to supply the city's needs for a municipal tree. He suggested planting such a tree in some central part of the city, in one of the parks. A probe for the bullet which entered the mouth of Victor Hoffman, Middletown, yesterday when he accidentally discharged a revolver which he was tampering with, was made at the Harrisburg Hospital this morning. Hoffman was visiting the home of his parents when the accident happened.
