First Steamer Carrying Supplies Reaches Trieste; Rumania Sends Appeal

Washington, Jan. 1.—Arrival at Trieste of the first steamer carrying food supplies for the Serbians and the sending of a special mission to Warsaw to organize food relief in Poland and another to Vienna to investigate food conditions there were announced in a cablegram received at the Food Administration offices yesterday from Herbert C. Hoover at Paris. A commission also has left for Belgrade to take charge of the situation there.

Conditions in Vienna and also in Rumania were said to be desperate. Mr. Hoover said representatives of the Vienna municipalities, now at Berno, Switzerland, stated that food supplies for the 2,000,000 people in the Austrian capital would not last more than ten days. The Swiss government, the cablegram said, proposed to forward at once a week's supply for the city.

As to Rumania, the cablegram said the American and Allied ministers there had telegraphed that they were convinced that the food supplies would not last more than another thirty days and that immediate steps for relief must be taken if the country is not to be submerged into Bolshevism.

Stomach and Liver Trouble Vanished After Taking Tonall "I have had stomach and liver trouble for years," says Mrs. Emeline Hoffman, of 148 Howard avenue, York, Pa.

The miseries I have gone through at times were terrible. I would bloat up after eating and get dizzy spells, and pains I would get around my heart were at times unbearable, and my complexion was yellow. I tried a great many remedies but it appeared nothing had been done. I am feeling much improved in every respect. I can eat and enjoy my meals. My nerves are just fine. I would not be without Tonall."

The above testimonial was given Sept. 7, 1918. "Tonall" is sold at Gorman's Drug Store, Harrisburg, and all leading drug stores in Eastern Pennsylvania.

Harrisburg's Greatest Achievement In Recent Years

A large hotel always has a fascination for the visitor and even the residents of a modern American city. Like a bee-hive of human activity there is always something stirring. Men and women come in and go out, registering from every section of the country. Men of affairs within the city invariably find it the most convenient place to meet for a business conference or a social chat. And the hotel in a Capital City and an important railroad center is of special interest. It not only reflects the life of the local community but the cosmopolitan gathering that is ever changing is an interesting study of men and methods representative of the nation. Good hotel facilities are among a city's most valuable assets, and one of the best advertisements a city can have. Therefore taking into consideration all the various good things accomplished in recent years, none stand out more conspicuously as a credit to the city's enterprise than the new Penn-Harris Hotel.
