SOLDIERS HOME; GIRLS DISMISSED

First Girls Retire on Middle Division Because of Returned Employees

Soldiers are returning in such numbers to the Middle Division office that it has been found necessary to dismiss ten girls who had been employed during the emergency in the Middle Division freight trainmaster's office.

The dismissal of the girls on the Middle Division is not to be considered at this time as the forerunner of a general suspension of the girls, it is explained, but it will be found necessary from time to time to dismiss some girls who were employed during the emergency.

Officials of the several divisions of the Pennsylvania Railroad explain that those positions, just as they are, await their returned soldier employees. Some girls are now filling these positions. When the men return efforts will be made to find other positions for the girls, but where this is impossible they will have to be dismissed from service.

The whole extent of destitution is not yet known, he asserts, but appears to include fully sixty per cent of the people.
