

JUDGES ARE TO SHOW SOLDIERS' VOTES GENUINE

Supreme Court Takes Action on Republican's Petition for a Probe

By Associated Press

Philadelphia, Jan. 8.—Upon petition of E. N. Carpenter, Republican, who, according to official returns, was defeated for Congress in the Eleventh district by John J. Casey, Democrat, to declare illegal the soldier vote cast in the November election, the State Supreme Court yesterday granted a rule to show cause why a writ of mandamus shall not be issued and made it returnable January 15, when the Luzerne county judges, who were made respondents in the petition, must answer Carpenter's charges, that the ballots as cast in Luzerne county gave him the election by eighteen votes.

Prothonotary E. J. Williams, of Luzerne county, refused to certify the soldier vote, claiming the vote was not cast and the returns not made in conformity with the acts of Assembly. The Court directed Williams to certify the returns, which he did, and when the Court canvassed the vote the returns from sixty-six of the seventy-three army cantonnements were thrown out. Returns from only those camps in which ten or more votes were cast were counted by the Court. This gave Casey a plurality of forty-two votes.

McAdoo Wins 5c Damages in Suit Against Cleveland

Cleveland, O., Jan. 8.—W. G. McAdoo, director general of railroads, was awarded a verdict of five cents in his damage suit against the city of Cleveland and Police Chief Smith, by Judge Kennedy, in common pleas court yesterday.

In the suit, McAdoo claimed the police department held evidence against a boxer thief a \$400 roll of leather being shipped by the Baltimore and Ohio Railroad to Cincinnati. The leather was restored to the railroad.

SAYS COLD WEATHER BRINGS RETURN OF INFLUENZA

Public Must Be Careful To Avoid A Second Epidemic. Easier To Prevent Than Cure. What To Do.

Encouraging reports of the fewer cases of influenza in this vicinity must not allow us to relax our vigilance or to become careless in the belief that the danger is over. With the coming of cold weather there is apt to be a little resurgence of the epidemic and its seriousness will depend on the extent of the precautions taken by the public to prevent infection.

When the air is full of influenza germs, you must constantly breathe them into your nose and throat. But their danger may be avoided and you may become practically immune to infection if you readily begin work in your nostrils.

During the recent epidemic which hit Harrisburg so hard, most successful results were obtained by many through the simple breathing into the nose, throat and lungs of the medicated air of Hyomel. Probably no better, safer or more sensible precaution against influenza, grippe, colds, bronchitis or catarrh of the nose and throat could be employed than to go to a drug store and buy a bottle of Hyomel and get a complete Hyomel outfit consisting of a bottle of the pure Oil of Hyomel and a little vesperinet hard rubber inhaling device into which a few drops of the oil are poured.

Carry this inhaler with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure healing germicidal air into the passages of your nose, throat and lungs to destroy any germs that may be lodged there. This simple precaution may save you a serious illness and the loss of several weeks' work. It is pleasant to use and not at all expensive as the inhaler will last a lifetime and the pure Hyomel Oil of Hyomel can be had at any drug store for a few cents. Hundreds of people in this vicinity used Hyomel in this way during the recent crisis and avoided danger. They should not neglect it now for the danger is by no means over. H. C. Kennedy.

LOOKING BACKWARD 60 YEARS

An Interesting Bit of History Everybody Should Know

One of the interesting places in Lowell, Mass., is the old apothecary shop on Merrimack street, established in 1827. This location is still a drug store, although of course modernized in many departments. The old prescription books, however, have been preserved and form an interesting record covering nearly a century.

Perhaps one of the most interesting books is that of the year 1855. On one of the pages of this book, it is written the original prescription of Father John's Medicine.

This prescription was compounded for the Reverend Father John O'Brien at the old drug store on that date, and was so successful treating Father John's ailment, which was a severe cold and throat trouble that he recommended the medicine to his

The Old Apothecary Shop Established in 1827 not contain opium morphine, chloroform, and any other poisonous drugs, or alcohol, but is all pure, wholesome nourishing

CAPRONI, PLANE MAKER, HONORS YANK PRESIDENT

Wilson Grants Bissolati Audience on League of Nations at Rome

By Associated Press

Milan, Jan. 8.—During his visit to Milan, President Wilson received many greetings. One was a statuette made of captured Austrian cannon representing Italy conquering Austria Black Eagle. Another was an illuminated volume presented by Gianni Caproni, the airplane manufacturer, describing the President as a "white eagle, the conqueror of all." The volume was dedicated to a giant airplane which Caproni is building for a trans-Atlantic flight.

Rome, Jan. 8.—During his visit to Milan, President Wilson received an ordinary citizen whose ideas always had been in conformity with the ideals of a league of nations. President Wilson, it is understood, announced his intention before leaving Paris of talking with Italian politicians who were not connected with the government.

President Wilson Lauds Colonel Roosevelt; Flags to Be Lowered Thirty Days

Washington, Jan. 8.—The following proclamation on the death of Theodore Roosevelt was issued by President Wilson last night at the State Department:

"A proclamation to the people of the United States: It becomes my duty to announce officially the death of Theodore Roosevelt, President of the United States from September 14, 1901, to March 6, 1909, which occurred at his home at Sagamore Hill, Oyster Bay, New York, at 4:15 o'clock in the morning of January 6, 1919. In his death the United States has lost one of its most distinguished and patriotic citizens, who had endeared himself to the people by his strenuous devotion to their interests and to the public interests of his country.

"As president of the police board of his native city, as member of the Legislature and Governor of his state, as civil service commissioner, as Assistant Secretary of the Navy, as Vice-President, and as President of the United States, he displayed administrative powers of a signal order and conducted the affairs of these various offices with a concentration of effort and a watchful care which permitted no divergence from the line of duty he had definitely set for himself.

"In the war with Spain he displayed singular initiative and energy and distinguished himself among the commanders of the army in the field. As President he awoke the nation to the dangers of private control which lurked in our financial and industrial systems. It was by this arresting the attention and stimulating the purpose of the country that he opened the way for subsequent necessary and beneficial reforms.

"His private life was characterized by a simplicity, a virtue and an affection worthy of all admiration and emulation by the people of America.

"In testimony of the respect in which his memory is held by the government and people of the United States, I do hereby direct that the flags of the White House and the several departmental buildings be displayed at half staff for a period of thirty days, and that suitable military and naval honors under orders of the Secretaries of War and Navy be rendered on the day of the funeral.

"Done this 7th day of January, 1919, at the White House, one thousand nine hundred and nineteen, and of the independence of the United States of America the one hundred and forty-third.

"WOODROW WILSON," By the President, Frank L. Polk, acting Secretary of State.

ARMY AIRPLANES MAKE TRIP FROM COAST TO COAST

4,200 Miles Made in 53 Hours; Held Up by Bad Weather

By Associated Press

Mineola, N. Y., Jan. 8.—Four army airplanes under the command of Major Albert D. Smith, landed at Hazelhurst field here at 5:30 o'clock yesterday afternoon, completing the first transcontinental flight ever made.

Although the planes started from San Diego, Cal., on December 4, the actual flying time for the 4,200-mile trip was only fifty-three hours. Major Smith explained that the squadron had been compelled to remain inactive for three weeks because of adverse weather conditions.

During the first stages of the trip Major Smith and his fliers mapped an aerial mail route between San Diego and El Paso, Texas. From El Paso the party was permitted to select its own route and made no effort to establish a speed record, Major Smith said.

The four planes were piloted by Lieutenants Robert S. Worthington, H. D. McClean, Albert Pyle and John M. Evans. The planes were in good condition, and Major Smith said he expected to return in them with his party to San Diego.

The transcontinental fliers were escorted here from Washington, the last stopping point, by two other planes, piloted by Captains Castle and Kenyon. Another planes from Washington, which was as a passenger Major General William L. Kenly, chief of the bureau of aeronautics, and was piloted by Major William C. Ocker, arrived here from Washington, the last stopping point, by two other planes, piloted by Captains Castle and Kenyon.

Cleveland, O., Jan. 8.—What is believed to be a new world's airplane speed record was set yesterday in a flight from Dayton to Cleveland by Pilot Eric Sprinker and Mechanic Ernest Longham in a Martin bombing plane driven by two Liberty motors. The 215 miles was covered in one hour and fifteen minutes, an average of 172 miles an hour. The previous record between the two cities was two hours flat.

The machine carried gasoline, tools and baggage weighing 2,500 pounds. It was the first machine turned out by the Glenn L. Martin factory here and had been at Dayton for several months undergoing army tests. The flight was not intended as a speed test.

Service Badges Awarded by Columbia Red Cross

There will be two sessions. The speaker for the afternoon session will be Prof. John S. Simons, of the West Lampeter vocational school. Interesting program have been prepared.

OVERSEAS VETERAN RETURNS

Millsboro, Pa., Jan. 8.—Chester Pauck is the first Millsboro overseas veteran to return home. He served with the 313th Infantry and during the fighting about the Argentine Forest region was severely wounded in the left shoulder and suffered from an attack of mustard gas.

Germans Gave Villa Munitions, Is Claim

Washington, Jan. 8.—Evidence signed to show that Francisco Villa, the Mexican bandit leader, received \$350,000 worth of munitions paid for by a German agent through the Mississippi Valley Trust Company, of St. Louis in 1915 was presented to-day to the Senate committee investigating German propaganda by Major E. Lowry Humes, in charge of the investigation. Major Humes said the money was sent by F. A. Sommerfeld, now interned as an enemy alien, who received credit to that extent from the St. Louis bank through the Guaranty Trust Company of New York.

The munitions were manufactured by the Western Cartridge Company, at Alton Ill., and shipped to Hilito Vela, a brother of the Mexican bandit, at El Paso, Tex., according to the documents presented by Major Humes.

Fire, Threatening Army Post at Newport News, Causes \$25,000 Damage

Newport News, Va., Jan. 8.—Fire, which for a time threatened the destruction of the army post of em-

barkation headquarters last night was confined to one wing of the building by the army and city fire departments. The portion of the large frame building destroyed was occupied by the medical corps and as most of the contents were removed, the damage will not exceed \$25,000.

Use McNeil's Pain Exterminator—Ad.
