DYNAMITE LETS

GO IN A POWDER

**COMPANY PLANT** 

Fire Destroys Property; Fire-

man and Watchman Blown

From the Building By Associated Press

Tunnelton, Pa., Jan. 9.-This city and towns for miles around were severely shaken and windows shattered when one thousand pounds of dynamite exploded last night at the R. McAbee Powder Company's

plant at Saltsburg, three miles from here. The two main buildings of the powder plant were desiroyed by fire which followed the explosion. A watchman and fireman, the only

A watchman and fireman, the only persons in the plant at the time, were blown from the building by the blast but were uninjured. Hundreds of persons here and in nearby towns rushed panic-stricken from their homes after the explo-sion. The plant was situated in a thinly settled district and it was not until early to-day the cause of the shock was learned. No estimate is obtained here of the damage.

PREDICTED FOR 1919 [Continued from First Page.]

dicting many new realty develop-ments. Some of these were planned months ago, but war conditions forced prices too high for any new construction work, with the result that in 1918 Harrisburg's building record touched a low level, the same as in al other cities in the country except where big Governments plants were erected. Deducting the cost of the two big school building projects, the record about reached the half.-million dollar mark, as compared with more than \$2,000,000 expended in construction work in 1917.

will buy his printing now and save money against the constantly increasing cost of paper.

Some people will never learn! And some learn in a short time! And still others are wise enough to take advantage of their opportunities.

master store houses, store house for mess hall; thirty tollets and wash-100ms. 275 Buildings A total of 275 permanent structures were built on the reservation by the Central Construction Corporation alone, of which number 199 are classed as large buildings and eighty-five as small. The temporary built ings number 350, of which number 235 are classed as large, such as bunk houses, borracks and mess hall; and 115 as small.

The Harrisburgers and mess har, and 115 as small. The Harrisburgers practically built a permanent city. In addition to the standard guage railway there were seven miles of therty-one and one-half for movement of materials. In connection with this there were used 2,500 tors of steel rails, 63,-400 thes, besider izeplates, fishplates, bolts and spikes. Then there was the sewage, a dys-tem more taan ten miles in length, varying from forty-two inches to six inches in diameter. Fresh water was riped from a run seven miles away and the distributing pipes were more than five miles in length. Lastly, an athletic field had to be built.

Train in Tunnel: Death For Division Engineer

Philadelphia, Jan. 9.—John At-lee, engineer in charge of the Phila-delphia division of the Pennsylvania railroad was killed beneath the wheels of a locomotive to-day. The accident occurrd in the West Phila-delphia tunnel of the railroad. No person witnessed the accident but officials believe he fell from the platform of an incoming train. Mr. Atlee's home was at West Chester. He was 44 years old.

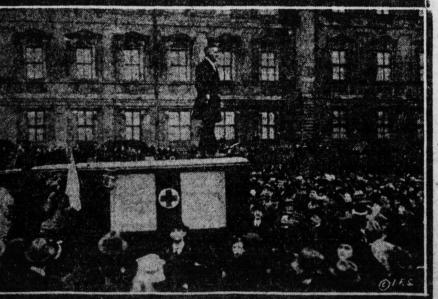

riped from a run seven miles away and the distributing pipes were more than five mines in length. Lastly, and athletic field hud to be built. Lieutenanit Col. Edwin M. Chance, in charge of picht operations, was one of Uncle Sam's big leaguers, for so rapidly did he proceed with the making of these hellbrew shells that when French and English experts arrived to help in the production one of them admitted: "We canne to teach, but we remeathed to learn. Thegas finally produced and which would have declarated all Germany, is a lethal gas of high poisoning pow-er. If has a severe delayed action on the heart which frequently prove-fatal after the scholt, differently displayed for use in September when the the terryr of the soldier, since ti hurns the skin and plays have with the eyes and breathing, was made from sulphur coloride and ethene gas. Edgewood was making thirty, cight tons of this per day, the gar.

In Splendid Shape

In spiendid Shape The report of the auditing com-mittee was read and approved. The report showed theaffairs of the club to be in a flourishing condition. On the committee are H. E. Schriver, Walter R. Hauser and Charles R. Beckley.

Beckley. Abner W. Hartman, soloist at the Messiah Lutheran Church, sang two baritone solos, "Swing Low, Sweet Chariot," and "The Skipper." He was accompanied by J. Stewart Black, the Klwanis planist. J. Lawrence Dooling, a member of the board of-directors of the Allentown club, con-veyed the greeting from that organ-ization in a shorttalk. Ernest B. Eppley, representing

What is the use of turning one's back to war conditions.

The war is on! Paper costs more and more as the scarcity becomes more acute.

The business man will need more printed matter, stationery, circulars, pamphlets, etc., as time goes on. But the business man will take time by the forelockl

We are happy to say at this writing that we have on hand a fairly liberal stock of paper.

And with our extensive facilities for printing we can share our economy in production with you.

Therefore - order your printing now. Call us on the phone and a man will be at your elbow in a jiffy.
