Hand For Licenses to Sell Oleo Keeps Food Bureau Busy

Receipts from automobile licenses for 1919 at the automobile registration division of the State Highway Department amount to more than half a million dollars more than the revenue for 1918 licenses...

The aggregate of the revenue received thus far for 1919 licenses is \$6,000 with every indication that \$2,000,000 mark will be passed by the end of the month.

There have been 178,000 pneumatic tires licensed, this is in excess of the number licensed to the middle of January last and about 30,000 solid tires have been licensed.

There is also an increase in the number of motorcycles licensed in demand—licenses for the use of oleomargarine during 1919 at the state dairy and food bureau aggregate within a thousand the total number issued during the year.

The total issued thus far for 1919 is almost 4,000. The State mission of Agriculture will hold final meeting to act upon the report of the department next day. The commission will ask more than a million dollars with respect that this will be increased to \$1,500,000.

It has a consultation with Prof. Erick Rasmussen, the secretary of agriculture designate, on the work he has in mind. The charge of First Lieutenant J. H. De You Fat?

WAR'S RENEWAL WITH HUNS THREATENED ON ARMISTICE TERMS

Central News Says the Allied War Council Calls Upon Britain to Cease Demobilizing Army, as It May Be Needed to Enforce Its Decrees

London, Jan. 16.—The Central News declares that as a result of the Allied discussions in Paris the whole aspect of demobilization has undergone a sudden and vital change, this being shown in the drastic conditions demanded of Germany for a renewal of the armistice.

"On authority of an unimpeachable character," says the Central News, "it can be stated that a situation exists in Europe under which war may break out again at any moment. The Allied War Council has arrived at a decision which means that the British people have mistaken the appearance of peace for reality. This decision means that the new British ministry must revise the whole scheme of army demobilization."

The decision is that Great Britain, in proportion to its military strength, must maintain an army of occupation on the Rhine for many months. If the rapid increase in demobilization recently announced were continued, there would in a few months be no army in France to undertake the obligations which, by common decision of the Allies, have been placed upon British shoulders.
