

WILSON WENT TO EUROPE TO HEAL NATIONS, LANE

His Plan Would Not Invalidate Monroe Doctrine, He Says

New York, Jan. 17.—Appealing for the support of President Wilson's idea of a league of nations by the business men of the United States, declaring the President's plan in no way would invalidate the Monroe doctrine and that Mr. Wilson had gone to Europe "not as a conqueror but for the healing of the nations," Franklin K. Lane, secretary of the interior, in an address here to-day before the Merchants' Association of New York, outlined what the fundamental elements of such a league "must be."

"We are Ready for Duty on the Play Line, Mother"

TO MOTHERS! Keep your little pets physically fit, smiling, feeling their best always, by giving Cascarets, the candy cathartic, occasionally.

Children love to take Cascarets. They are sweet candy-like tablets, but just wonderful to correct the little white tongue, feverish breath, sour stomach and colds. Cascarets gently "work" the bile, sour fermentations and poisons from a child's tender stomach, liver and bowels without griping or injury.

Mr. Lane's address previously was advertised by the association as being an answer to the question "what is it that President Wilson has gone to Paris to bring about? How will it preserve peace and help humanity?"

Mr. Lane explained how through the formation of a league of nations quarrels between nations could be adjudicated by "an international court," following investigation of the case by "an international council of mediation," how a "delinquent" nation could be "encompassed by a circle of iron," completely shutting off its economic life and isolating it from the rest of the world; how, if this failed, the members of the league of nations could as a last resort turn to war.

The speaker declared President Wilson had gone to Europe "as a representative of an ideal of the statesmen of many centuries" and

Washington, Jan. 17.—There are 408 American steam vessels of the total deadweight tonnage of 2,622,550, affected by the Shipping Board's release order. No compilation has yet been made to determine how many of the vessels will be retained by the government.

POSTPONE ACTION ON ARMY PLAN, CONFEREES AGREE

Reorganization Bill Will Go Over Until Next Session of Congress

Washington, Jan. 17.—The House military committee virtually has reached an agreement with Secretary Baker and General March, chief of staff, to postpone the War Department reorganization bill until the next session of Congress and with it a large part of the prospective debate over the future military policy of the country.

A suggestion yesterday by Chairman Dent that a legislative rider on the army appropriation bill continuing the existing war organization of the department and the regular army for another year, be substituted for the reorganization measure, met with the approval of Mr. Baker and apparently with that of a majority of the committee members.

The proposal grew out of a conference at which Secretary Baker and the chief-of-staff explained to the committee the reorganization measure framed by the department, providing for a regular army of 500,000 men to be raised by voluntary enlistment on a flat three-year basis. The bill also would have made permanent the absolute control over all branches of the army now exercised by the chief-of-staff as a wartime necessity.

Impossible This Session

Chairman Dent said it would be impossible to get such a bill through Congress in the six weeks remaining of the session. Committee members agreed with him, pointing out that the War Department bill on its face appeared to be a military policy measure which abandoned the theory of universal military obligation. Mr. Baker insisted that this was not the case; that no attempt to fix the nation's policy as to a peace time army was involved, but agreed that the substitution of continuing authority appeared to be the wisest course in view of uncertainties of the situation abroad and lack of time for full discussion in Congress.

Plan of Rider Unknown

The exact form of a rider to be studied out by the general staff, it probably will leave the strength of the force to Presidential order within limits and subject to appropriation limitations. The committee will take up at once hearings on the regular appropriation bill which provides as drawn for 509,000 men.

Secretary Baker would make no declaration in regard to universal military service suggestions, saying he would submit no proposal of that nature until the peace conference had finished its work and the obligations of the nation could be gauged. General March said the army now was organized under Presidential order and the plan included in the staff bill was practically that organization. A total strength of 509,000 men is provided for, he said, to be organized into twenty divisions grouped in five corps. The total annual cost he fixed at \$1,185,000,000, estimated on a return to a base pay of \$15 a month for privates and exclusive of \$88,000,000 carried in the fortifications bill.

All of the existing wartime organizations such as the coast, transportation and motor transportation corps, independent air service and the like are to be continued, with the exception of the chemical warfare service.

Germans Threaten to Take Provisions of Poles in Prussia

London, Jan. 17.—The Germans have determined to seize all provisions in the hands of the Poles in Prussia, if the Polish provinces of Germany are to be restored to Poland, according to reports from an authoritative source published in the newspapers to-day. If Germany can keep these Polish provinces, Chancellor Ebert has declared, she can increase her influence to the south and east and one day reconquer in the west what she has lost. This assertion was made by the chancellor at a secret meeting of all parties, at which he also stated that Germany will reconquer the west through the east, if, on the other hand, Germany should lose the Polish provinces, the rebirth of political power through pacific efforts at expansion to the east would be impossible.

Slight disturbances occurred when members of a radical element tried to enter the hall, but police prevented serious disorder.
