sanatorium from his uncle, sets out to effect ten cures within thirty days or forfeit the title of the establishment. There will be no increase in prices for this show. The music of "Very Good Eddie" is lively and tuneful, and there is a story that is replete with funny situations. Two married couples are mixed up on their honeymoon, being separated as they are ready to embark on a Hudson river boat. Just how the complications of the newlyweds get straightened out, and how the doctor takes charge of the institution the patients plan to leave on the first train in the evening. The doctor, however, has prearranged plan to keep them at the place for at least a month, so he asks them to pose in the garden with hoses and rakes while he takes their pictures for a leading society journal. Through another clever ruse he gets them to cultivate part of the ground, and by the time the train leaves for the city, the patients are enjoying their first real sleep since they arrived at the sanatorium. The comedy is typically American.

Mr. Hodge brings an excellent cast, including: Miss Clara Moore, Adelyn Wesley, Carson Davenport, George Lund, Edith Shayne, Charles E. Vernon, Edward Wynn, George Hart, Charles Bellair, Brian Royce, James H. Lewis, James C. Malaidy and others.

How native women of Mexico grind and knead corn, how they form cakes with their bare hands and cook them in Travel the sun, is an interesting feature of Howe's latest Travel Festival, to be presented at the Orpheum, Friday and Saturday, with daily matinees. Other features of Mr. Howe's new Travel Festival include: "Up in the Air With the Marines," the most sensational aviation pictures ever filmed; a thrilling canoe trip through the South American jungles to Kalesou Falls; exquisitely colored scenes of peaceful Southern France; a life-like reproduction in clay of the popular Red Cross poster, "The Greatest Thing in the World"; a unique "freak" film called "Scenic Distortions" which reveals a number of grotesque and puzzling effects; and "Capturing Wild Animals," in which a daring hunter demonstrates his skill and nerve in roping black bears and other ferocious beasts of the wilds with only a lariat as a weapon.

The program will, of course, include Mr. Howe's newest animated caricatures, for which the Howe entertainment is famous. These new screen cartoons are the funniest and most entertaining yet turned out by the Howe animated art laboratories.

The beautiful and talented Elsie Ferguson is being presented in her latest photoplay, "Heart of the Wilds," at the Regent Theater, Monday and Tuesday, and Wednesday. At the Regent, Elsie Ferguson is not to tell things—now if it was a woman—well, that's something else, yet she plays the role of a British secret service man in this country at the beginning of the war. His mission makes it impossible for him to explain to the girl he loves, the apparent inaction that makes him appear a slacker. How things take a sudden turn and matters are cleared up for the man and the girl forms a most interesting and exciting story. Grace Darmond is the girl in the case. Wednesday, Thursday and Friday, Rex Beach presents "Too Fat to Fight."

Bessie Barriscale, in "Maid of the Storm," due at the Victoria to-day and tomorrow, is declared to have the most appealing rolls of her screen career. A strong love theme, without any touches of melodrama, sentimentality, forms the basis of a gripping film.

To-morrow Theda Bara has been secured for a one-day performance of the always heart-touching and appealing "Two Orphans," which has long held the affections of the theatergoers. It gives Miss Bara an exceptional chance to display her histrionic talents and should prove a winner.

Wednesday and Thursday William Farnum is booked in "The Soldier's Oath," an exceptionally strong film, which is, beyond doubt, one of Farnum's best plays. "Hour of the Master Mystery," on Friday and Saturday, with pretty Peggy Hyland, in "Caught in the Act" ends this attractive week's program.

New Telephone Toll Rates

Effective January 21, 1919

(Announced December 13, 1918, by Postmaster General, Washington, D. C.)

New schedules of rates for telephone toll calls (to points outside the local service area) under which all toll calls throughout the United States are placed on a uniform basis, become effective 12.01 a. m., January 21, 1919.

Under these new schedules the "station to station" rate is the base rate upon which all rates for the various classes of service offered, are computed. This rate is determined by the air line distance between toll points and is computed, for the initial period, on the basis of 5c for each 6 miles up to 24 miles and 5c for each 8 miles beyond that distance. For toll calls where the calling party does not specify a particular person to be reached at the called telephone, "station to station" rates are charged.

For toll calls where the calling party does specify a particular person to be reached at the called telephone and the connection is established and conversation held with that person, "person to person" rates are charged. As this service requires a greater amount of operating effort, the rate for such calls is about one-fourth greater than the "station to station" rate. The minimum "person to person" rate is 20c.

Toll calls involving an appointment to talk at a specified time, or involving the use of messenger service to secure attendance of a designated person at a public telephone at a distant point may be made at rates usually about one-half greater than the "station to station" rate, plus the cost of messenger service. The minimum rate for such calls is 25c.

For all toll calls other than those made on the "station to station" basis, where connection is established but the conversation is not held because the calling or called party is not present or will not talk, a "report charge" is made, equivalent to about one-fourth of the "station to station" rate. The minimum "report charge" is 10c; maximum \$2.00. No "report charge" is made if the call is completed before midnight of the day it is placed.

Night rates, applying only to calls made on a "station to station" basis, are quoted between 8.30 p. m. and 4.30 a. m. The rate between 8.30 p. m. and 12 midnight is about one-half the "station to station" day rate, and between 12 midnight and 4.30 a. m. about one-fourth the "station to station" day rate. The minimum night rate is 25c.

"Station to station" calls must be made as far as possible by giving the telephone number of the called telephone. When the number is not known and telephone directory information is not available the number should be obtained from "Information," or if the called telephone is at a distant point, the name and address of the called subscriber should be given to the Toll Operator, stating that it is a "station to station" call.

The "station to station" rates are substantially lower than the "person to person" rates. In order that patrons may effect the greatest economy in their charges for toll service, and also maximum speed of connections, they are urged to study their toll service requirements and to make the widest possible use of "station to station" calls.
