	We are receiving many tele-
-	phone calls from all parts of
	the city requesting us to de-
	liver Gunzenhauser bread to
	families who have not as yet
	had our bread.

- This is due in some measure to the fact that there are a number of grocers in those particular localities who have underestimated the amount of Gunzenhauser bread they should order each day, and to the fact that we have not as yet reached some grocers at all.
- We will therefore ask the grocers as well as the public to be patient a little longer until we are able to get our big delivery fleet in ship-shape so

that we can supply all grocers in all parts of the city and suburbs.

We are straining every point to keep up with the demand for our bread by working steadily. You see, that no matter how big the demand we must, in justice to the future of our business and your patronage, make only first quality bread.

We want you to like Gunzenhauser bread from the first time you eat it. And we want you to serve it daily to your family. We know you will continue to like it so long as we keep up the quality. And you can rest assured that we will always keep the quality the highest.
