If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise made by the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system, the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example, Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

WOMAN WINS FIGHT TO REGAIN WEIGHT

Mrs. Sallie H. Kulp, 2021 N. 21st St., Phila., pays a high tribute for the aid she received from the use of Tanlac. "I suffered from a badly run-down system and an 'all in' tired feeling. My liver seemed sluggish and I felt sleepy and lifeless much of the time. I lost pounds in weight. My son's illness and death during the grip epidemic caused me to lose heart. Someone at our house suggested Tanlac. I've taken over forty bottles and I've gained back forty pounds of good weight and feel so much better in every way."

The genuine Tanlac, which bears the name J. I. Gore Co., on outside carton, is now sold here by Geo. A. Grogan, George's Drug Store, C. F. Kramer, W. F. Stevens, and the celebrated vegetable tonic, stomachic and health builder, is also sold in neighboring cities and towns. Ask for it.

WOMEN AT WORK

During the war, millions of women have been at work in vocations into which they have never before been called. — In Munition Factories, Chemical Works, Metal Works, Street Railways, and as Ambulance Drivers, Barbers, and Elevator Girls. Undoubtedly thousands of others have longed to serve in this way, but because of female ailments, which had fastened upon them, were not able to do so. Women in this condition should give Lydia E. Pinkett's Vegetable Compound a trial and find health and strength as thousands of others have so done.
