

Must Make Effort or State Will Act

The Public Service Commission day served notice on the Borough of Punxsutawney that it must make effort to buy one or more of the water companies in that place or the town will act. The borough applied for a certificate to operate its own water works. Both of the companies in the town are in the hands of receivers. The commission says reports indicate that the plants are being operated at a loss and concludes: "The existing situation is unfortunate and presents a more or less perplexing problem. Its continuation would not be permitted. Should the application be approved it will result in the operation of two plants, creating a competitive situation with its accompanying evils of poor service, economic waste. Shortage of water and it may mean a continuation of the unfortunate conditions. The consideration would be the acquisition, at a fair value, of the present plants of waterworks by the municipality and the making of such extension and additions thereto as would insure adequate service. Before taking any definite action the commission will require applicants to offer to purchase waterworks plants at a fair value, setting forth in its offer the amount it deems such fair value to be. The applicants should either accept this offer or set forth their reasons for refusing. If they are unwilling to sell on account of the price offered, they should submit with their refusal the price at which they would be willing to sell. In case no agreement is reached, each side should consent to submit to arbitration the price to be paid. Upon the refusal of either party to accede to the foregoing suggestion within thirty days from the date hereof, the commission will take such action in the matter as it deems just and proper."

No stomach dosing; just breathe it, breathe and healing the inflamed membrane.

Daily Health Talks

GOING BACK TO NATURE. BY DR. W. LUCAS.

People get sick because they go away from nature, and the only way to get well is to go back. Some grow out of the ground in the form of vegetation to cure ailments. Some of these vegetables are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a horse, dog or cat will stop eating food and seek out some vegetable with in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself? Dr. Pierce, of Buffalo, N. Y., long ago found the herbs and roots produced by nature to overcome constipation, and he had these vegetables collected and made up of Jalap, little white sugar-coated pills, he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, and decayed matter are imbedded in your system, and these carried by the blood throughout the body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and dependent. As a matter of fact, you may get sick all over. Don't see how useless all this suffering is? All that is often needed is a Dr. Pierce's Pleasant Pellets, which has placed in all drug stores for your convenience and health. Try them by all means; you are probably the very thing that need right now.

Watch the Little Pimples;

They Are Nature's Warning

Slightly and Disfiguring Signals of Bad Blood. Don't close your eyes to the warning which nature gives, when unhealthy pimples appear on your face or other parts of the body. Not only are these pimples and blotches disfiguring, but they lead to serious skin diseases, that spread and cause the most discomforting itching and pain. Sometimes they tell Eczema, holls, blisters, scaly eruptions and other annoyances that are like flames of fire, and make you feel that your skin is ablaze. When these symptoms appear on

any part of the body, take prompt steps to rid the blood of these disorders. And the one remedy which has no equal as a purifier is S. S. S., the purely vegetable blood medicine, which has been on the market for more than fifty years. It is sold by druggists everywhere. Hyomel used regularly should cure skin disease, do not expect to be cured by lotions, ointments, salves and other local remedies, as they can not possibly reach the source of the trouble, which is in the blood. Begin taking S. S. S. to-day, and write a complete history of your case to our chief medical adviser who will give you special instructions, without charge. Keeping up the pace---at

Harrisburg's Newest Bakery

- It is one thing to make a good start and another thing to keep it up.
When we started in the baking business in Harrisburg, a couple of weeks ago, we promised the people of this community that we would give them the best bread to be had.
That seemed like a big promise to some but we knew what we were talking about. We have been in the baking business for years and we have never baked anything but quality bread.
From the very first loaf of bread we put out in this city, each succeeding loaf of Gunzenhauser's bread has been the same quality.
This unvarying rule is the result of years of experience in the baking business.

- True, our facilities in our new plant here are not up to the standard which we have set for our Harrisburg home, but they will be in the near future. Some of the machinery is still on the way and we hope to have it shortly.
In the meantime we are using what machinery we have here in the plant, but the lack of Gunzenhauser's standard facilities for baking is made up by the skill and experience of Gunzenhauser's bakers.
There is one thing which we are proud of and that is that we do know how to make good bread—and we make it.
Have YOU tried Gunzenhauser's bread? We hope you have.

NEW CABINET IS QUICK TO WORK

Four Take the Oath of Office Within a Few Hours After Senate Confirms Them

The new administration is quick to get to work. Within a short time after the Senate had confirmed the nominations of six officials four of them were at their new departments. It was a remarkable showing and in line with the new Governor who was busy in his office a few hours after he had delivered a speech which will rank among the great state documents.

The new Governor soon after his inauguration sent this letter to the Senate:

January 21, 1919. To the Honorable, the Senate of the Commonwealth of Pennsylvania, Gentlemen:—

In accordance with the power and authority vested in me as Governor of the Commonwealth, I do hereby recall all nominations made to your honorable body by my predecessor in office under date of January 7, 1919, except those for the office of Notary Public.

I respectfully request the return to me of the official message of nomination in the premises. The names sent in and confirmed were William I. Schaffer, Media, attorney general; Cyrus E. Woods, Greensburg, secretary of the Commonwealth; Lewis S. Sadler, Carlisle, highway commissioner; Major Edward Martin, medical corps United States Army, Philadelphia, commissioner of health; Frederick Rasmussen, State College, secretary of agriculture, and John S. Fisher, Indiana, commissioner of banking.

Mr. Schaffer succeeds Francis Shunk Brown and Mr. Woods was reappointed. The others fill vacancies existing or created by the letter. At the same time that he sent in the names the Governor notified the two Houses that he had appointed Harry S. McDevitt, of Philadelphia, to be his private secretary and he was at once introduced.

The oaths were administered in the office of the Secretary of the Commonwealth Cyrus E. Woods and Mrs. William I. Schaffer, wife of the new attorney general; the members of the staff of the state and attorney general's departments.

The oath was first taken by Mr. Woods, Acting Deputy Secretary of the Commonwealth George D. Thorn officiating and Mr. Woods then took the oaths of Mr. Schaffer, Commissioner of Banking John S. Fisher and Major Edward Martin, Commissioner of Health. Commissioner Fisher filed his bond a short time later and assumed the direction of his department. The nomination of Daniel F. Lefean, his predecessor, had been withdrawn by the new Governor.

NEW MILITIA WIN LAWMAKERS

Reserve Will Be Expanded and Given Allowances for More Equipments Quickly

The Pennsylvania Reserve Militia details here for the inauguration won the legislators and early action on the proposition to expand the Militia and to provide additional motor truck and machine gun equipment is assured.

The Provisional regiment represented all sections of the State and together with the Tyrone-Bellefonte cavalry troop, the motor transport, machine gun detachments and sanitary detachments gave an idea of what the new National Guard, as it is termed, is like and what a valuable basis it will be for a new Guard when the boys come home again.

The comment was generally favorable and the Militia is certain of strong support. From comments heard among legislators the only thing the matter with the State Police is that the numbers are too small and that they would have liked to have seen more of the splendid troopers in the parade. The appearance and discipline of the State Policemen here was up to previous years.

Huston Visits Hill—Among the inaugural visitors at the Capitol yesterday was Joseph M. Huston, the architect of the Capitol. Almost unknown to the people on the Hill the about, very well satisfied with what he had done and enjoying the comments on the beauty of the structure.

New Officials in Charge—Lewis S. Sadler, of Carlisle, the new highway commissioner, and Prof. Frederic Rasmussen, of State College, the new secretary of Agriculture, took the oath of office today before Secretary of the Commonwealth Cyrus E. Woods and at once took charge of their departments. All of the men appointed by Governor Sprout yesterday are now in office. Commissioner of Banking Fisher to-day met the staff of his department and Col. Edward Martin, the new health commissioner, had an extended conference with the heads of the departments.

Governor Sprout's Signature—Governor Sprout's official signature will be "Wm. C. Sprout." He has signed the oath of office and the State department will recognize that as his signature. The new governor's first meeting was with the trustees of State college, of which he is an ex officio member.

Secretary McDevitt in Charge—The system of business in the governor's office was found to be materially changed to-day. Instead of visitors going into the small reception room as they have done the last four years, they will go into the big reception room and pass the messenger who will take their names to Secretary McDevitt. Mr. McDevitt has banished the fancy furniture of the last four years and has a plain business like roll top desk in his office.
