

VALOR OF YANKS INSPIRES FRENCH TO GIVE PRAISE

Lieutenant Quentin Roosevelt Included in List of Americans Cited Overseas

By Associated Press Paris, Jan. 23.—Citation for 208 Americans are contained in French army orders, according to the latest Official Journal. The list includes Lieutenant Quentin Roosevelt, Major General John A. Lejeune, Brigadier General A. J. Bowley and W. C. Neville. Aviators Edward W. Rickenbacker and Douglas Campbell and Captain Thomas C. Speers.

The citation of Lieutenant Quentin Roosevelt reads: "An excellent pilot and scout, possessing the highest qualities of courage and devotion to duty. On July 10, 1918, in a combat with five enemy machines he brought down one of his adversaries. He gloriously fell in the course of an aerial combat on July 14, 1918."

American Sanitary Section No. 504 was also cited as follows: "Under command of Lieutenant Blanchard, it has performed during the year 1918 long service in the evacuation of wounded from the first line—on Verdun in February and March, in the Somme region in May and June, on the Aisne in July, Courcy in August and September, Lys and Scheldt regions in October and November.

The Twenty-eighth Infantry, Company O, Fifty-sixth Engineers, American Sanitary Section No. 583, and the Seventh Machine Gun Battalion also were cited.

5,200 Troops From the War Zones on Way Over

Washington, Jan. 23.—The transport Martha Washington has sailed from France with 2,400 troops, including 250 sick and wounded, and is expected to reach Newport News January 28.

The battleship Connecticut also is due at Newport News February 1 with about 1,000 men and the transport Mallory is expected to reach New York January 31 with 1,800 men of the Three Hundred and Twenty-seventh Field Artillery and a number of casualties and wounded.

SPAIN, NEUTRAL IN WAR, OBJECT OF HUN THRUSTS

Romanones Says Armistice Being Signed Prewar Policy Is Resumed

By Associated Press Madrid, Jan. 23.—Count Romanones, the Spanish Premier, was interpellated by Deputy Darcia, Republican Reformerist, to-day relative to his visit in Paris and the Moroccan question. The Premier replied: "During the war Spain was the object of constant aggression from the German submarines. I wished then to react against aggression, but found myself deprived of the support of public opinion. We, therefore, were compelled to be neutral and were loyally impartial. The armistice being signed, we can no longer be neutral. We must resume our pre-war policy."

Count Romanones recognized that Spain's policy in Morocco had been a failure, but declared that Spain must observe the Cartagena convention between England, France and Spain relative to the community of interests between the three countries in Mediterranean and eastern Atlantic waters.

Italian Delegates Confer With Diaz on Italy's Desires

By Associated Press Paris, Jan. 23.—The Italian delegation to the peace conference held a conference yesterday with General Diaz, the Italian commander-in-chief, who has arrived in Paris to discuss Italy's aspirations from a military and strategic point of view with special attention to the possession of what the Italians call "the keys of the doors on land and sea."

To realize this object the Italian delegates, it is considered, it is indispensable that Italy possess the Brenner pass and also the Dalmatian coast and Zara and Sebenico. Without this territory they say it is impossible for Italy to control the Adriatic as otherwise the coast line of Central Italy would be at the mercy of any nation possessing Dalmatia.

BOLSHEVIKS IN NORTH RUSSIA SUFFER DEFEAT

Peasants Revolt in Many Parts of Country, Late Reports Say

By Associated Press London, Jan. 23.—The Bolshevik forces in northern Russia have suffered a severe defeat, according to advices received by the Exchange Telegraph Company from Copenhagen. The dispatch adds that great peasant revolts have been reported from many parts of the country, and that the Bolshevik commander ordered his troops to surrender the town of Sinoeff without a fight.

American Shelled Archangel, Jan. 21 (Tuesday).—Bolshevik troops are heavily shelling the farthest south positions of the American and Russian armies at Ust Paderna, on the Vaga river, thirty miles south of Shenkursk. They also are showing considerable activity west of Shenkursk on the Tania river. It has been impossible to determine whether the attack will develop on a greater scale. The enemy has mobilized the peasants in the vicinity of Vilsk and apparently is prepared for a general offensive in the Shenkursk sector.

Sunday the enemy, under cover of heavy bombardment, attacked with infantry the American and Russian positions at Ust Paderna. The allied outpost withdrew, but the Bolshevik attack on the main positions was repulsed with heavy losses.

There has been no infantry action since, though there has been a constant rain of shells on the village. The American artillery is vigorously replying.

Yesterday, flying in a temperature of sixteen degrees below zero, one American airplane bombed the enemy and secured direct hits on important Bolshevik positions. The fighting is going on in cold, clear weather, but the temperature is so low that it is difficult for the infantrymen to remain in the open for any length of time.

The Bolshevik also are shelling the American positions on the Volozda Railroad. With the exception of a few days early in January, when the allied forces attempted to improve their positions southward on the Kadish Railroad and on the Onega sector, the offensive on the Archangel front for several months has been in the hands of the Bolsheviks.

They are boasting that in the vicinity of Kadish they will "drive the Allies into the White Sea in March."

Along the Rumanian Railway front the Russian and allied troops yesterday raided the village of Ruzozherka, fifty miles southeast of Soroka, where they either killed or captured all the Bolshevik garrison. They took 110 rifles and other equipment and numerous documents. The allied forces did not suffer a single casualty.

THREE ARE HELD ON ASSAULT AND BATTERY

Continued from First Page. She abused her last Saturday night. She was arrested two days later at her home. Both are colored. Green was rushed to the hospital, where it was feared he would die. He refused to give the reason for the attack.

Michael Fisher was charged with assaulting Roy Hicks the night of January 14 and clubbing him into insensibility after they had been drinking together in Fisher's pool-room. Hicks made out the information against Fisher. He declared they were walking to Fisher's home, when, without warning, Fisher set upon him and beat him. He was found hours later by a policeman and taken to the hospital. His condition was serious and doctors feared for his life.

Eddie Sandrew was charged with having attacked John Milo during a quarrel and knocking him down in front of Slayback's meat store in Chestnut street. Mikko sustained a broken leg. The affair happened January 13.

No manufacturing is carried on in Tunis except the soap-making industry, which is dependent upon the olive-oil industry; one or two tanning establishments of little importance and the native shoemakers, rug and textile weavers, saddlemakers, etc.

RECONSTRUCTED STATE IS PLEA

Commonwealth desires to better its record. A huge signboard tells that Pennsylvania had less than sixty per cent. of its draftees fit for service.

"It is a crime," pronounced Miss Fisher dramatically, "to give babies 'pacifiers.'" They cause enlarged tonsils, adenoids, make the mouth crooked and act as 'pacifiers' often falls in the dirt, babies are endangered with all sorts of infectious diseases.

The various meetings were crowded with interesting facts and criticisms. I. C. Williams in a report on the progress of forestry in 1918, notes: "The area of land purchased and paid for and now constituted into fifty-three state forests was, to the first of January, 1919, 1,032,233 acres, for which there was paid a consideration of \$2,350,033, or an average price per acre of \$2.27. This vast area, distributed in twenty-seven different counties of the state, chiefly in the mountainous region extending north and south through the center of the state, together with such conditions as may be made from time to time, is bound to become a great future storehouse of wealth for Pennsylvania."

Mr. Williams has a brief against school folks. "By an amendment made to the school code at the legislative session of 1915, all receipts derived from the state forests are paid into the state school fund. There to be invested and the interest only employed for future school purposes. To January 1, 1919, the receipts from the state forests have been \$172,099.66. This sum of money has, therefore, become incorporated into the state school fund. While it is small compared to other sources from which that fund derives money at the present time, it will shortly, with increased production, be swelled to a considerably greater monetary amount, which is now about \$2,900. Unfortunately the school people are doing little or nothing to help the cause of forestry. They take our money and seem glad to get it, but give little help and no encouragement in return.

"Could all the dead, dying and blighted chestnut now upon state forests be marketed speedily, from their present condition, they would be a net return of about \$500,000. Other improvement operations within the forests would add a substantial amount of this sum."

Potato Variety Tests The potato growers here, C. F. Preston, secretary of the Pennsylvania Potato Growers' Association, who spoke on tests. He explained that "the objects of a potato variety test is to determine what variety will yield the most bushels per acre under the existing soil and climatic conditions of a state, county or community; second, to furnish information of disease resistant varieties; and third, to secure the adoption by a majority of growers in a community of that variety which is best suited to local conditions as indicated by the tests."

By way of summarizing results he said that the Dibbles Russet variety appeared in all six tests thus far made and occupied first place in five instances and third in the sixth. The second place was occupied by Roxbury in only one test (that of Lehigh county) and occupied first place with a yield of two hundred and twenty-four bushels. Petosky appeared in two tests and occupied second place in both. Sir Walter Raleigh took second place in one test, third place in two tests and fourth in another. Rural New Yorkers No. 2 occupied second position in one test, third in another, fourth in two cases and fifth in another.

Gold Coin, Green Mountain, Irish Cobbler, Heath's Late Beauty, Carleton No. 3 and Uncle Sam follow approximately in the order named.

A mighty poster picture of a dozen babies demanding fair play, hit the sympathetic eye, each baby asking for some relief: "Don't kiss us in the mouth," "Give us pure milk," "We don't want flies," etc. Fisher demanded loudly that all mothers in Pennsylvania throw away pacifiers.

Blamed For Deaths It is believed that this "crime" is responsible partly for the big average in deaths of babies under one year of age. Reckoning by counties, this average at present includes: Fayette, 174; Washington, 140; Lebanon, 123. Dauphin looks good with 90 babies in 1,000 perishing each year. Adams is the healthiest county in the state, having a percentage of 65.

One reason for this may be the plentifulness of milk, for State College spoke "milk" with a loud voice to-day while hundreds heard that this commodity is the very best food known.

"Make Pennsylvania healthy by wise eating" was a secondary slogan and representative Harrisburgers looked hard at the fact. Preston Crowell, with a delegation of Rotary men, planned to visit the fact that a breakfast of stewed prunes, Quaker oats with milk or cream, two slices of buttered toast and coffee with sugar and cream, equal in nutrition one pound of eggs (7 eggs) or one pound of broiled chicken, or two potatoes, or 4-5 pound of steak, and only cost 1-4 as much.

In the animal activities where McKensie, the Highland sheep expert who stands like "Scots who ha' wi' Wallace bled," great excitement was produced by his announcement that there are more red-necked greased sheep in Pennsylvania this year than last, and 52,567 more hogs (count 'em), than before the war. True, the number increased by one-half, but the sad news is that dairy cows showed a decrease of one per cent. just when State College declares that milk is the universal nourisher.

Prizes for potato awards: District No. 1, class 1, whiteskin potatoes, first, Albert Tyson, Horsham. District No. 2, class 1, whiteskin potatoes, George Wellinger, Carlisle, R. D. 4; class 2, pinkskin potatoes, Alvin Blanch, Jonestown. District No. 3, class 1, whiteskin potatoes, J. W. Shibley, Alhida, class No. 2, pinkskin potatoes, J. W. Shibley, Alhida; class No. 3, boys and girls, (any variety), Florence Mutchler, Hepburnville, R. D. No. 1, Grant's Hampton exhibit, Albert Tyson, Horsham, Montgomery county, county championship, best ten exhibits, Cambria county. Small Grain Awards: Wheat—First, Calvin Blouch, Jonestown, R. D. No. 2. Oats—First, John F. Zook, Belleville.

WILSON HONORED BY UNIVERSITY'S ART DEPARTMENT

Students Present Wilson With Album of Rheims Cathedral Photographs

By Associated Press Paris, Jan. 23.—President Wilson last night received a deputation of the students at the Sorbonne, or the departments of arts and science of the University of Paris. They presented him with an album bound in old parchment and containing fine photographs of the Rheims Cathedral before the war.

In reply to an address, which was read by a young woman student, Mr. Wilson said he was particularly touched by the gift as a mark of esteem from the students, which, he said, he accepted "as a professor." He remarked that he would tell American students of the "nobility of the sentiments of their French comrades."

The British War Cabinet is considering a proposal to ask the Peace Conference at one of its earliest meetings to appoint a commission to inquire into the question of an international adjustment of conditions of employment and to submit plans for a permanent international court and organization to secure joint action in such matters.

PURE FOOD SALE

A pure food sale under the auspices of the Young Women's Missionary Society of Grace M. E. church, will be held to-morrow afternoon from 12 to 6 o'clock. Pies, cakes, candies, baked beans, veal loaf and other cooked food will be sold at that time. The proceeds from the sale will be used for home missions of the Methodist church.

NARVA DRIVE IS ROUT FOR REBEL RUSSIAN FORCES

Esthonian Advance Guards Within 75 Miles of Petrograd; Must Have Help

London, Jan. 23.—Esthonian officials claim that the defeat of the Bolsheviks after the capture of Narva amounted to a complete rout, according to a Helsingfors dispatch to the Daily Mail. Esthonian advance guards are within 75 miles of Petrograd and continue to capture prisoners, arms and munitions, their booty including an armored train.

It has been learned that the Esthonian advance guards are within 75 miles of Petrograd and continue to capture prisoners, arms and munitions, their booty including an armored train.

Why?

Why do you go to an optometrist to have your eyes examined when they fail to give you the comfort and service you should, or when you get the pains in and back of the head? Because you want relief, member, your eyes are your friends, and should not be trusted to a man of unknown questionable ability—the best none too good.

Advertisement for S. S. Loggoff, Optometrist, located at 12 N. MARKET SQUARE, Second Floor.

FAMO STOPS SEBORRHEA THE DANDRUFF DISEASE

No other hair remedy even remotely resembles FAMO. FAMO kills the dandruff germ and stops the unhealthy flow from the sebaceous glands. Every ingredient in FAMO is well known to physicians. But none of these ingredients were ever before applied to saving the hair. Science perfected FAMO in one of the oldest pharmaceutical houses in Detroit—famous for its laboratories which supply physicians all over the world with medical goods. FAMO not only kills the seborrhea microbe but it makes the scalp and hair as clean as that of a baby. It ends all itching of the scalp. Even where baldness has already appeared (unless the hair roots are absolutely dead) FAMO will encourage and stimulate the growth of new hair. Many women say FAMO has caused their hair to grow from four to six inches. FAMO retards grayness and strengthens the natural color. It contains no alcohol to dry the scalp and produce gray hairs. It makes the hair luxuriant and lustrous and if there is a tendency to waviness FAMO intensifies it.

BLOOM'S Values and Qualities. Have Been Proved by Thousands of Satisfied Customers in This City and Vicinity. Bloom's Name Is a Guarantee For Quality and Style.

Next week we are starting an alteration of our store room. We need more room for the carpenters to work and therefore have to dispose of some of our large stock. We are making a special effort to sell as large an amount in as short a time as possible and are going to offer these goods at big reductions. You will be the one to profit by this sale.

Coats, Suits, Serge Dresses, Silk Dresses. Silvertones, valued \$75.00, for \$42.00. Suits at prices less than the raw materials. Serge Dresses, valued \$32.00, for \$18.00. Silk Dresses, valued \$35.00, for \$20.00.

YOU CANNOT AFFORD TO MISS THESE VALUES AS THEY SURPASS ALL FORMER REDUCTIONS. 19 N. Third St. TWO DOORS FROM PENN-HARRIS

Warner's Safe Pills. Have been the ideal Family Laxative for 40 years—a guarantee of reliability. Gentle in action, they are entirely free from injurious drugs, and are intended especially for constipation, biliousness, indigestion, torpid liver or inactivity of the bowels.

Pneumonia. First call a physician. Immediately commence the "emergency" treatment—VICK'S VAPORUB. NEW PRICES—30c, 60c, \$1.20.

Warner's Safe Pills. Have been the ideal Family Laxative for 40 years—a guarantee of reliability. Gentle in action, they are entirely free from injurious drugs, and are intended especially for constipation, biliousness, indigestion, torpid liver or inactivity of the bowels.
