Lebanon has won two games from either Lebanon or Reading. Next Friday night Reading goes to York and is almost sure to win. With Lebanon and Reading winning and Tech losing, it would mean that Tech would have a hard row to hoe to make up the lost ground.

## HIGH PLACE IN THE RAILROAD WORLD FOR COL. KENNEDY

Head of Cumberland Valley Likely to Be Vice President of P. R. R.

The belief was expressed in railroad circles today that M. C. Kennedy, who retires as president of the Cumberland Valley Railroad Company with the transfer of that system to the Pennsylvania Railroad, will become a prominent figure in the affairs of the Pennsylvania Railroad for many years. The Cumberland Valley, under his direction, has been one of the model railroads of the country, and one of the most profitable as well. Colonel Kennedy has been its guiding genius for years and has been closed to the management of the Pennsylvania than any other railroad man outside the Pennsylvania circle of executives. When the war broke out he was chosen by the federal government to go to Europe to help prepare for the arrival of American troops and supplies in France and he remained until the armistice had been signed and the system of home-coming army transportation established. Much of the success in troop movement without hitch or accident was due to his work and skill as a railroader and the Pennsylvania management intends to recognize his ability with a high place in its service. It is understood that the management of the Cumberland Valley which will continue in the hands of Colonel Kennedy, will carry with it a Pennsylvania Railroad Company vice-presidency and broader powers for the Cumberland Valley executive.
